STONE SURFACE PROTECTION FILM

INSTALLATION INFO

OUR FILM IS WET APPLIED - CONTAINING A MIX OF SLIP AND TACK SOLUTIONS

AFTER INSTALLATION, BUBBLES OF WATER AND SOLUTION WILL APPEAR TO 'PIMPLE' - THIS IS A NORMAL PART OF THE ADHESION PROCESS / HEAT WILL EVAPORATE THESE OVER A TIME PERIOD OF 1 - 14 DAYS

YOUR FILM HAS BEEN TRIMMED EITHER ON A BEVILLE OR WRAPPED EDGE - SO NO LIFTING CAN OCCUR

PREPARATION / APPLICATION

OUR TECHNICIANS HAVE BEEN TRAINED SPECIFICALLY IN THE HANDLING OF THE PRODUCT AND CORRECT APPLICATION.

PRIOR TO APPLICATION

A TECHNICIAN WILL INSPECT YOUR STONE BENCHTOP, BARTOP, TABLE OR VANITY TO DETERMINE WHETHER IT REQUIRES POLISHING, REPAIRS OR CLEANING TO REMOVE DIRT, GRIME, STAINS, SCRATCHES, ETCHING, BURN MARKS OR OTHER DAMAGE.

THIS WILL ENSURE THE STONE IS LOOKING IT'S BEST AFTER THE TUFFSKIN FILM HAS BEEN APPLIED.

STONE SURFACE PROTECTION FILM

OWNING SENSITIVE STONE SURFACES DOESN'T HAVE TO BE A HEADACHE

YOU CAN RELAX KNOWING THAT NO MATTER WHAT THE ISSUE - YOUR NATURAL STONE IS PROTECTED

EASY TO MAINTAIN

PREVENTS ETCHING AND STAINS ON YOUR MARBLE, TRAVERTINE, AND SIMILAR CALCIUM-BASED NATURAL STONE SURFACES.

UNLIKE LIQUID SEALERS, OUR PRODUCT IS A THIN POLYESTER FILM THAT ADHERES TO THE SURFACE OF YOUR STONE - WITHOUT DIMINISHING THE WAY IT LOOKS AND FEELS.

EASY REPLACEMENT IF DAMAGED

10 YEAR MANUFACTURER WARRANTY*

ENHANCES THE LOOK AND FEEL OF YOUR VALUABLE STONE INVESTMENT

THINNER THAN A SMARTPHONE'S SCREEN PROTECTOR, THIS HIGH-TECH FILM IS BOTH LIQUID IMPERMEABLE AND GAS PERMEABLE, WHICH MEANS LIQUIDS WILL NOT TOUCH YOUR STONE, BUT IT CAN STILL BREATHE.

LIQUID SEALERS DON'T PREVENT ACIDIC LIQUIDS FROM TOUCHING YOUR STONE'S SURFACE - FILMS DO.

DESIGNED TO ADHERE TO STONE SURFACES, PRESENT TECHNOLOGY EVEN RESISTS SCRATCHES.

APPLICATION

STEP 1

THE STONE IS CLEANED OR RESTORED AS AGREED, DEPENDING ON STAINING, ETCHING AND THE CONDITION OF THE STONE.

STEP 2

ONCE ALL DIRT, GRIME, STAINS AND ETCHING HAVE BEEN REMOVED AND THE SURFACE IS CLEAN AND GRIT FREE, THE FILM IS CUT TO SIZE AND LAID USING SPECIAL APPLICATION TECHNIQUES .

STEP 3

IT IS ADVISABLE TO RESTRICT USE FOR 48 HOURS TO ALLOW THE ADHESIVE TO CURE, HOWEVER IT CAN BE USED IF NECESSARY.

WARRANTY INFORMATION

/ YOUR FILM HAS A 10 YEAR MANUFACTURER'S WARRANTY AGAINST
/ YELOWING / CRACKING / DE-LAMINATING
