Your main Veterinary Clinic: _____

Any Allergies or Health Problems:

Medications: _____

Dog's Socialization History:

With People:

With other Dog's:

Any Special Requests:

Please Note:

For Premium, ALL dogs will need to be evaluated for this service. Clients may be turned down by the Owners and Management. We do not accept unaltered dogs over two years of age. We do not guarantee photos of dogs on our social media platforms. We do not groom difficult dogs we always suggest taking your dog to the vet for nail trims if they are a bite risk. (For your safety and theirs.) We will turn your dog away if it shows sign of being a bite risk towards humans. Please understand that we do all of this to protect our staff and the other dogs in the facility. We also require three vaccinations: Bordetella, Distemper, and Rabies. We will need to see proof of ALL three of these vaccines before your dog can enter the facility. For boarding we like to suggest doing at least a half day of daycare beforehand to help your furry family member adjust to the environment. We request that when you bring belongings, please only bring one bed that is easily washable (please be aware your dog may decide to destroy belongings.) Try to limit it to two toys per dogs. Dogs like to steal, and items can end up getting lost. But we want your pets to have something to remind them of home! We provide all food and water bowls. Thank you. 😊
