

Extreme protection from the Australian sun

NON-REFLECTIVE

CERAMIC COMFORT SERIES
ARCHITECTURAL WINDOW FILM

by
UltraGard
window films

Matrix™ Nano Carbon Ceramic window film is a strong solar shield that protects you, your home or your building's interior from the sun's damaging heat and harmful ultraviolet rays.

Whether you live in the outback, near the mountains or along Australia's beautiful coastline, Matrix™ window film is the ideal choice when you desire the very best solar control protection for your home or building windows.

Matrix™ features a fused construction of proprietary technologies to produce a supremely durable window film that provides outstanding solar control performance and long term protection from the harsh Australian sun.

Multiple nano carbon and advanced ceramic layers provide an attractive non-reflective finish with excellent glare reducing properties, strong solar heat control and UV ray protection.

The combined insulating benefits increase air conditioner efficiency, minimising interior temperature imbalances while improving room comfort all year round. Matrix™ is a fade resistant, metal-free window film that is non-corrosive making it ideal for humid and coastal environments.

Matrix window film is fully backed by a comprehensive warranty offering many years of performance and protection.

FEATURES

- Deep non-reflective outdoor appearance
- Daytime privacy with supreme glare control
- Excellent protection from fading and UV rays
- Durable nano particle composite construction
- Corrosion resistant, suitable for coastal areas
- Non-conductive – WiFi, mobile & signal friendly
- Strong solar heat rejection, up to 70% TSER
- Available in various density options

BENEFITS

- Helps lower yearly energy costs
- Provides a uniform look from outside
- Soft shades enhance window views
- Protects against damaging UV rays
- Reduces fading of internal furnishings
- Crystal clear, distortion free adhesive
- Makes glass more shatter resistant
- Scratch resistant, easy to clean

Matrix™ Performance Specifications

PRODUCT CODE	MX15	MX24	MX43
TOTAL SOLAR ENERGY REJECTED %	70	65	50
VISIBLE GLARE REDUCTION %	84	76	51
ULTRAVIOLET PROTECTION %	99	99	99
DAYTIME PRIVACY RATING	High	Medium	Low

Product performance data based on window film to 3mm (1/8") glass. Values are representative of typical production runs and are subject to normal manufacturing tolerances within industry standards.

Engineered for Vision, Comfort & Solar Protection

The solar filtering technology of UltraGard Window Films can make a distinct difference in maintaining the look and comfort of your home or building. Whether presenting a uniform appearance from the outside that is architecturally impressive, or helping to preserve the furnishings, product displays and other valuables within, UltraGard's diverse range of window films can provide an economical and energy efficient solution.

Ceramic Comfort Series window films are constructed with the latest in advanced ceramics and optically tuned nano-particle technology. Well known for their durability and thermal insulating properties, ceramic coatings provide a high quality shield for your windows and present a good opportunity to save, from the top to the bottom line.

Lifetime Residential or 12 Year Commercial Warranty

**You're 100% protected
Australia wide!**

Enjoy absolute peace of mind, knowing that your UltraGard Window Film is guaranteed for as long as you own your home – against peeling, bubbling, cracking, changing colour or loss of performance in any measurable way.
