

Technology driven formula for supreme vision

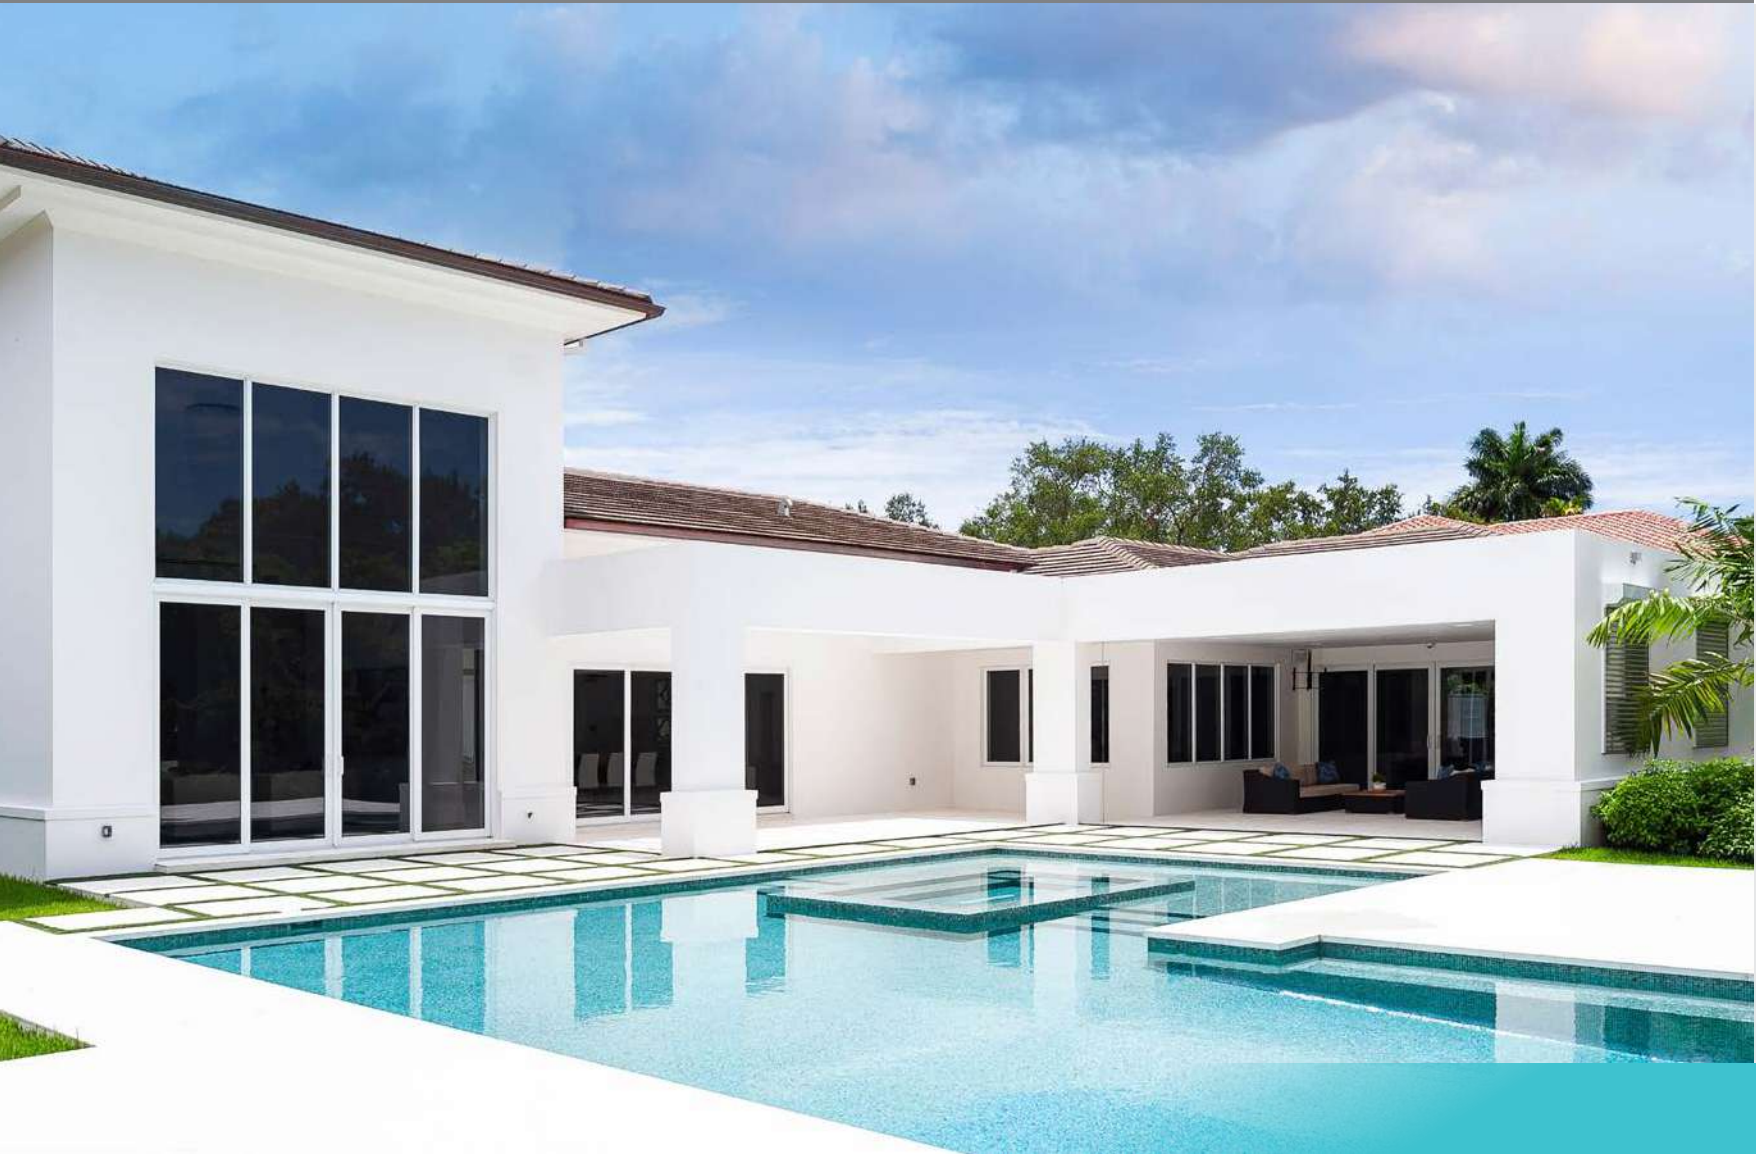

NEUTRAL PERSPECTIVE

CERAMIC COMFORT SERIES
ARCHITECTURAL WINDOW FILM

by
UltraGard
window films

NatureVue® High Definition Ceramic window film provides an aesthetically pleasing shield that protects you, your home or your building's interior from the sun's damaging heat and harmful ultraviolet rays.

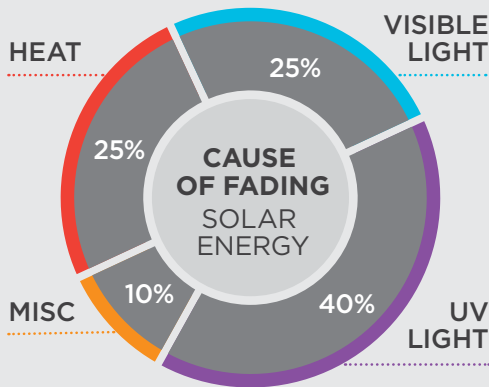

Empowered by a revolutionary manufacturing process, NatureVue® window film incorporates advanced ceramic coatings with nano-particulate technology to selectively filter the sun's solar energy while providing high definition optics that naturally enhance your views.

NatureVue® window film is a popular choice for home and building owners desiring a visually subtle window treatment looking from both inside and out. Featuring a soft neutral tone that preserves room ambience NatureVue® is available in a wide range of shade options providing varying levels of solar heat rejection, daytime privacy and visible glare reduction.

Well known for its superior performance and durability when exposed to the sun's extreme energy, ceramic technology achieves strong solar heat rejection and UV ray protection without the harsh mirror-look normally associated with conventional metal based window films. NatureVue® is non-corrosive making it ideal for coastal locations with no edge sealing required as well as being signal friendly so it will not interfere with your Wi-Fi or mobile phone reception.

NatureVue® window film is fully backed by a comprehensive warranty offering many years of performance and protection.

FEATURES

- Advanced high definition ceramic construction
- Attractive neutral appearance, inside and out
- Excellent daytime privacy with darker shades
- Lighter shades offer total two way vision
- Reduces glare, improves day and night visibility
- Corrosion resistant and suitable for coastal areas
- Non-conductive, Wi-Fi, mobile and signal friendly
- Excellent solar energy rejection, up to 74%

BENEFITS

- Helps lower yearly energy costs
- Aesthetically neutral soft-grey finish
- Preserves natural room ambience
- Reduces annoying indoor glare
- Protects against harmful UV rays
- Reduces fading of internal furnishings
- Makes glass more shatter resistant
- Scratch resistant and easy to clean

Product performance data based on window film to 3mm (1/8") glass. Values are representative of typical production runs and are subject to normal manufacturing tolerances within industry standards.

Engineered for Vision, Comfort & Solar Protection

The solar filtering technology of UltraGard Window Films can make a distinct difference in maintaining the look and comfort of your home or building. Whether presenting a uniform appearance from the outside that is architecturally impressive, or helping to preserve the furnishings, product displays and other valuables within, UltraGard's diverse range of window films can provide an economical and energy efficient solution.

Ceramic Comfort Series window films are constructed with the latest in advanced ceramics and optically tuned nano-particle technology. Well known for their durability and thermal insulating properties, ceramic coatings provide a high quality shield for your windows and present a good opportunity to save, from the top to the bottom line.

Lifetime Residential or 12 Year Commercial Warranty

You're 100% protected Australia wide!

Enjoy absolute peace of mind, knowing that your UltraGard Window Film is guaranteed for as long as you own your home – against peeling, bubbling, cracking, changing colour or loss of performance in any measurable way.
