### Essay:

**Source of Problem:** An apostate culture (Isaiah 3) has produced a family structure of weak men and strong women. This has resulted in entire generations of confused and abusive men, with also confused, but controlling women. Entire generations have accepted this unto their own destruction.

**Problem:** While in most churches, men appear to be “in charge,” they are not. It is women, by default who are propping up their weak men, even though all make it appear that men are the leaders. Thus, there can be no disciple making, no discipline, and no forward movement.

**Solution:** Biblical principles and goals for “*Masculine Manhood*” must be established from the ground up. May God make us all *World Changing Leaders* that will reproduce *World Changing Leaders* for the rest of our lives.

**Avoidance:** A total rejection of the “brain-washing” methods and goals of our culture. We must be so bathed in the Word of God that anything not a part of “*Masculine Manhood*” is rejected.
