

# FREE School Presentations

## DID YOU KNOW TYRANNOSTORUS OFFERS FREE COMMUNITY EDUCATION?

Tyrannostorus has a dedicated team well-versed in paleontology, geology, and other fields with a passion to educate and provide hands-on experience to spark an interest in the world of natural sciences. Our **FREE school visits** include a wide variety of real and replica fossils, which our audience can touch and interact with. We have experience presenting in auditoriums or smaller classroom settings. Our well-educated staff has wonderful presentations prepared for all ages. We provide free stickers and coupons for activities at our store in Mesa, AZ and answer all questions our audience may have.

We also host **STEM field trips** at our activity center in Mesa, Arizona. Our in-store field trips start at \$10.00/student and include a hands-on activity ranging from collecting and identifying fossils to eating astronaut ice cream! For more information about our paleontology, geology, oceanography, zoology, anthropology, and space field trip packages, visit <https://tyrannostorus.com/field-trips>.

Contact us via phone or email if you'd like to schedule any events. We hope to hear from you soon!
