Airport Planning Committee Formation and Appointments

WHEREAS, the Town Board desires to form an Airport Planning Committee that will consist of two sub-committees, one being individuals in the aviation community and the other consisting of persons interested in pursuing noise abatement measures at the airport to reduce the impact of aviation activities upon the surrounding community; and

WHEREAS, a bicameral approach will allow us to have an orderly process in which to address these divergent and important concerns; and

WHEREAS, it is the goal of the committee, through discussion among these two sub-committees, to draft a plan for the Airport that addresses noise abatement, airport operations, infrastructure and capital financing, with the two sub-committees working on parallel tracks. Once consensus is reached within the respective sub-committees, the committee will work together to build a final consensus to present to the Town Board and the public; now, therefore, be it

RESOLVED, that the sub-committees will be structured as follows:
