RE: East Hampton Airport

In response to your comments and resolutions concerning airport-related issues affecting many on the East End, I will continue to keep you informed of any actions taken by the East Hampton Town Board.

On September 18, the Town Board adopted Resolution 2014-1180, "Identify and Adopt Regulations to Address Noise and Disturbance from Operations at East Hampton Airport," a copy of which accompanies this letter via email.

The Town of East Hampton drafted this resolution in cooperation with our outside counsel, Kaplan Kirsch & Rockwell, LLP, as well as our Town Attorney's Office. Our Noise and Aviation subcommittees have also reviewed it, and their respective comments, where practical, have been incorporated.

The Town Board is following a pragmatic and careful process, taking into consideration all who have an interest or concern with respect to East Hampton Airport, and I would also like to let you know our schedule moving forward.

The Town has tentatively scheduled a special informational meeting for Thursday, October 30, to review the Phase 1 Noise Analysis prepared by our noise consultants, Young Environmental Sciences. We will send you a notice when the details of this meeting are finalized.

We hope to prepare draft legislation before the end of December and expect to conduct public hearings thereafter. We expect to complete and implement alternative actions prior to the 2015 season.

Sincerely,
