DYNAMOS

Dynalase Meta Oxygenation System

dynalase.com

WHY CHOOSE DYNAMOS

Carboxytherapy involves injecting carbon dioxide gas under the skin. The treatment with DYNAMOS is believed to improve skin quality and elasticity by increasing oxygen flow to the tissue. It is used for cellulite reduction, stretch mark and scar treatment, and addressing dark under-eye circles. Carboxytherapy is generally considered safe as carbon dioxide is a naturally occurring gas in the body.

01

Controlled volume and pressure

Volume and pressure delivery is critical to infuse the right dosage of CO₂, initiating the oxygenation and mechanical effect from the flow rate

02

Temperature stability

Right temperature maintained during active flow for safe infusion and reduced trauma

03

Micro-filtering

Fine micro-filters ensure purity in CO₂ gas, reducing adverse events and contraindicative response in the skin

INDICATIONS:

Varied indications allow you to cater to multiple patient needs with ease and expanding the treatment basket to multi-modality segment with enhanced results with mono/combination therapy

➡ **Stretch marks, scars and cellulite reduction**

Increased tissue oxygenation, stimulating collagen remodeling and softening fibrotic scar tissue

➡ **Dark circles reduction and rejuvenation**

High oxygen delivery, stimulating collagen production, reducing pigment deposition and edema for brighter, firmer skin.

➡ **Reduces hair loss**

Improving scalp microcirculation which stimulates hair follicle activity and prolongs the anagen (growth) phase.

➡ **Fine lines, wrinkles and crow's feet**

Elastin synthesis through increased oxygenation leading to smoother, firmer, and more elastic skin.

TECHNICAL SPECIFICATIONS:

NEEDLE TYPES	30G x 0.5 or 27G x 0.5 needles
BIOSAFETY FILTER	0.22µm
PRESSURE CONTROL	0.1KPa step control
TEMPERATURE CONTROL	YES
VOLUME CONTROL	1cc step control
WEIGHT	5kgs
DIMENSION	56 x 46 x 41 cms

ABOUT US

Dynalase Aesthetic Solutions is a biomedical engineering led and backed organization that believes in providing best aesthetic energy based device technologies with superior Dynalase IP value added services with complete end to end solutions from right purchase consultancy, training, post sales service, financial aiding, remote assistance, AI and more.
