Comprehensive Economic Development Strategy (CEDS) 2024

2024 Community Meeting Recap for the Community of Colstrip

Annually, Southeastern Montana Development Corporation (SEMDC) initiates public input throughout a four-county region to assist in developing a Comprehensive Economic Development Strategy (CEDS). In the past, we have held community meetings to gain insight into trends, strengths, and concerns in various communities. This year we conducted online public surveys to assess how things have changed from last year, and to note what projects are priorities to be completed for the following year(s). These conversations are incorporated into a five-year CEDS planning document created by SEMDC to be utilized in the process to assist the communities in Southeastern Montana.

SEMDC is working with citizens and communities to find ways to maximize positive impacts and mitigate negative ones. The more individuals in each community understand economic change and its impacts, proactively plan, and communicate within the community and region, the better the outcomes will be.

Colstrip CEDS Survey 2024

Group Discussion

SEMDC prepared a survey that asked about changes to previously gathered Strengths and Concerns. We provided last year's information in the survey and asked participants to indicate what had changed from last year's meeting. We recorded the results. The lists below are what survey responses indicated.
