

By Mark Holloway

The M109 is in a fantastic new museum in Wyoming. You have got to go! It's free for vets. I was not in 5/16 but when I saw the bumper number on that gun I decided to research it and found your website. You have got to go to this museum. It's probably the best one in the world. I'm going for the first time next week. The owner has over 400 restored, operational tracked and wheeled vehicles! Below I'm sending three links. A news video, the museum web site and the museum FaceBook page. Road Trip!
