

Beekeeping Presentation Topics – Updated 5-31-25

1. **“How do Bees Communicate”** **Audience: New – 5-12yo**

A/V Needed

A 20-40 minute FUN presentation to kids less than 5-12yo on how bees communicate with each other

2. **“Bees-n-Beekeeping – Let’s Learn a Bit About These Super Cool Bugs!”** **Audience: 10-14y/o Good with STEM**

A/V Needed

A 30-45 minute presentation on honey bees especially good for presentation to STEM students.

3. **“Intro to Beekeeping”** **Audience: Non-beekeepers thinking about getting into beekeeping**

No A/V needed

A 60-90 minute presentation to NON beekeepers who are thinking of starting beekeeping. Best presented in the late fall to give people a basic knowledge that will allow them to make a decision if beekeeping is right for them. Tells them the good and the bad as well as how to get started if they decide to go forward.

4. **“Bees and Flowers”** **Audience: Non-beekeepers, especially garden clubs**

A/V needed

A 30-60 minute presentation on how bees interact with flowers, pollination, and some basic bee science
