

BEGINNER BEEKEEPING SERIES

**FOUR FRIDAYS
IN MARCH**
7:00 - 9:00 PM

LIFE CHURCH
1033 Elm Street
Grafton, Ohio 44044

Ready to start your beekeeping adventure?
Join us and learn the skills you need to
confidently care for your own honey bee colony!

No two classes are the same! Each session explores a different aspect of beekeeping, including:

- Beekeeping equipment
- The honey bee life cycle
- Essential hive management
- What to expect during your first two months as a beekeeper
- Summer and fall hive management

Registration is just \$50 and includes the complete class, a one-year LCBA membership, and a monthly email newsletter for you and family members living at the same address.

Beekeeping for Dummies will be available for purchase during the classes.

The excitement continues in the apiary! Hands-on hive inspections will be offered on Saturdays in April and May, giving you the opportunity to work alongside experienced beekeepers, observe a thriving colony up close, and gain practical experience with live honey bees.

Class Registration begins December 1
