

Primary Care Work Packages

Our Primary Care work-packages provide practical solutions to strengthen, streamline, and sustain primary care delivery. Our purpose is to support GP Federations, PCNs, and practices to improve quality, efficiency, compliance and resilience — without adding pressure to clinical teams.

WP1 EstateFit™

Strategic Estate Optimisation for Modern GP Services

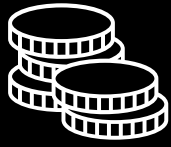

EstateFit™ exists to ensure primary care premises are fit for purpose, future-ready, and fully aligned with population health needs. It provides a structured, system-wide approach to assessing, optimising, and modernising GP surgeries, health centres, and community health hubs so they can deliver integrated, high-quality care.

WP2 CompliCheck™

Improve physical and digital safety, security and levels of compliance

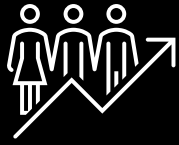

CompliCheck™ is our tailored, end-to-end assurance service ensuring primary care premises meet all statutory, regulatory, and safety requirements — reducing risk, supporting CQC readiness, and protecting patients, staff, and organisational reputation.

WP3 PracticeSmart™

Improve efficiency and unlock immediate savings

PracticeSmart™ helps GP Federations, PCNs, and individual practices unlock efficiencies, reduce operational costs, and free up staff time. It's about making smart, evidence-based changes that improve quality while delivering measurable savings.

WP4 Practice Training Hub™

Digital Training Made Simple for Primary Care

Practice Training Hub™ helps GP Federations, PCNs, and individual practices improve staff skills, speed up onboarding, and maintain consistent quality of care by giving teams quick, reliable access to the training they need — when they need it.

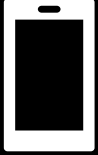

The Full Monty

Sign up for the whole suite of work-packages and receive a discount, here's why it makes sense -

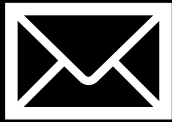

- **Primary Care specific** – the four work-packages are tailored to the realities of GP, PCN, and federation delivery
- **Joined-up approach** – the four work-packages complement each other and are designed to give you peace of mind
- **Proven results** – rapid efficiency gains, cost savings, and quality improvements mean you will benefit in the short-term and the longer-term

**These work-packages can be tailored to your requirements, please contact us a detailed discussion.*
