

SYSTEM TRANSFORMATION SUITE / T1

LIFE-COURSE SYSTEM DESIGN

Design one coherent system for living well across every life stage.

8-12 WEEKS

A WHOLE-SYSTEM MODEL THAT CONNECTS LIFE STAGES, PARTNERS, OUTCOMES AND INVESTMENT PRIORITIES.

Designed for

For systems ready to move beyond crisis response and align prevention, communities and long-term sustainability.

- Adult Social Care, Public Health and ICS / Place leaders
- Primary Care, commissioning and strategy leads
- Transformation teams aligning health, care, VCS and communities

What changes

Define living well

Set out a whole-system model across life stages.

Align the offer

Connect ASC, health, VCS and community assets.

Make it deliverable

Create the roadmap, outcomes and investment priorities.

Design one coherent system for living well across every life stage.

CLEAR OUTPUTS THAT MOVE THE SYSTEM FORWARD

01

Define living well

Set out a whole-system model across life stages.

02

Align the offer

Connect ASC, health, VCS and community assets.

03

Make it deliverable

Create the roadmap, outcomes and investment priorities.

A whole-system model that connects life stages, partners, outcomes and investment priorities.

REDESIGN AROUND
LIVES, NOT
ORGANISATIONAL
BOUNDARIES.

Discuss a Life-Course System
Design work package with TMPM.

LET'S TALK

Tell us what scrutiny, pressure or redesign challenge you need to solve.
