

SYSTEM TRANSFORMATION SUITE / T2

COMMUNITY-LED NEIGHBOURHOOD TRANSFORMATION

Build neighbourhood models with communities, not around them.

12-16 WEEKS

A LOCALLY OWNED NEIGHBOURHOOD MODEL WITH PARTNERSHIPS, GOVERNANCE AND A ROUTE FROM PILOT TO SCALE.

Designed for

For places seeking practical neighbourhood integration across primary care, Adult Social Care, VCS and local communities.

- Adult Social Care, Public Health and ICS / Place leaders
- Primary Care, commissioning and strategy leads
- Transformation teams aligning health, care, VCS and communities

What changes

Design locally

Integrate primary care, ASC and VCS around neighbourhoods.

Build partnerships

Create local governance and shared delivery ownership.

Pilot and scale

Test community interventions that reduce avoidable demand.

Build neighbourhood models with communities, not around them.

CLEAR OUTPUTS THAT MOVE THE SYSTEM FORWARD

01

Design locally

Integrate primary care, ASC and VCS around neighbourhoods.

02

Build partnerships

Create local governance and shared delivery ownership.

03

Pilot and scale

Test community interventions that reduce avoidable demand.

A locally owned neighbourhood model with partnerships, governance and a route from pilot to scale.

TURN NEIGHBOURHOOD AMBITION INTO A WORKING MODEL.

Discuss Community-Led
Neighbourhood Transformation with
TMPPM.
