

WHAT IS JOSH?

With Josh, elegant design seamlessly blends with technology to provide a simplified and secure control platform. Easily set the mood with contextual voice commands or efficiently automate your environment with the Josh App. Josh knows its role and continues to adapt, enabling users to interact with their living spaces in whatever way feels most natural.

1. THE JOSH APP

The Josh App is your all-in-one whole-home interface, designed for luxury homes. It effortlessly consolidates control over lights, shades, music, and more through an intuitive interface. Accessible via touch, text, or voice commands, it provides versatile control, from whole-home settings to granular device management or specific room adjustments. [Learn more](#)

2. UNIVERSAL REMOTE CONTROL

Josh provides a range of universal control options that go beyond the capabilities of a traditional remote control. Unlike conventional remotes limited to managing your TV, Josh's universal remotes empower you to control your entire home. Using voice commands, users can communicate with their surroundings, saying things such as "Watch Stranger Things, dim the lights, and close the shades." [Learn more](#)

3. NATURAL VOICE COMMANDS

Josh is the only control system with a voice assistant purpose-built for home control. Simply have a conversation with your home -- there's no need to memorize commands. Josh lets you speak more naturally, using exclusive AI advanced functionality, such as compound commands. Josh evolves based on your interactions, providing the most intuitive experience possible. [Learn more](#)

4. CONVERSATIONAL AI

JoshGPT enhances systems by allowing users to ask questions on any topic, fostering conversational interactions. Clients not only receive answers but also benefit from insightful clarifications and conversational feedback. Whether seeking nearby restaurant suggestions, curious about song inspirations, or needing assistance planning a vacation, JoshGPT generates personalized and engaging responses. [Learn more](#)

5. TAILOR YOUR EXPERIENCE

The Josh system is designed to cater to your individual needs. You have the flexibility to customize Josh's personality by selecting from a range of voices, accents, and responses to your commands. The Josh App is fully customizable for each system, allowing you to personalize everything from system names to backgrounds and room images. [Learn more](#)

6. CONSTANTLY IMPROVING

Josh is designed for the future. Through regular over-the-air software updates, Josh consistently enhances and refines its capabilities, delivering state-of-the-art functionality. This includes the rollout of new app features, the improvement of voice control capabilities, or the integration with the latest devices. Josh is committed to supplying clients with the most innovative and contemporary solutions. [Learn more](#)

7. PRIVACY AND DATA SECURITY

Josh provides you with full control over your data, with the ability to easily delete commands or entire chat histories. As the sole home control system with tools to manage data usage, Josh prioritizes your smart home experience, free from unsolicited marketing or data sold to third parties. [Learn more](#)

8. PROFESSIONAL INSTALLATION

Josh is exclusively available through certified installers who have undergone comprehensive training to ensure the proper installation and support of the system, offering unparalleled reliability. Josh also provides installers with industry-leading remote support options, giving clients the assurance that their system is always up-to-date and functioning properly. [Learn more](#)
