Agenda

1. Additions/Changes to Agenda

2. Welcome and Introduction

3. Architectural Design Work with GVV – Review and Discussion

- Materials to be provided/Shared by Chi
- Notes from last discussion:
 - o Make sure the space is designed to be a licensed childcare facility (or just licensed Afterschool Program?).
 - o Would like an additional bathroom available at the first floor, in addition to a remodeled basement bathroom. (There would also be bathrooms for 2nd story use)
 - o The town does not want to be a landlord for residential units. Need to explore options for property management or unit ownership and provide to Selectboard for review and consideration to continue pursuing this use as an alternative.
 - o Prepare 2 alternatives for public meeting: one option with housing at second floor and one option with commercial/office at second floor. 1st floor is community space/afterschool program space and basement is rec program/team changing area.
 - o Chi to organize the plans and coordinate with Henry Erickson for estimates.
 - Estimates to be broken out to have the “base cost” for all items that are necessary for either option ie structural, energy upgrades, repairs, etc. Then the costs that differentiate the two ie additional stair tower, more interior walls and doors, additional fire ratings.
