Restoring the Common School

*A lesson in legacy – restoring Fairfield
Center’s historic schoolhouse*

The Common School is a historic schoolhouse built in 1809 and an important landmark in Fairfield Center. The Town is supporting plans to bring it back to life as an asset central to our community.

The Town of Fairfield received a grant to further develop architectural schematic designs and cost estimates to restore the Common School around a community vision. Based on initial community input and discussion, the Common School Working Group has worked with GVV Architects on draft plans that meet a variety of community needs.
