Curt Hurst Joins AATC University Board Of Regents

The energy industry veteran will serve as East Coast Campus Acting President of American Advanced Technology & Cybersecurity University.

Nov. 19, 2019 (GREER, SC) Curt Hurst, D.DCL-Candidate, has joined the American Advanced Technology & Cybersecurity (AATC) University as Vice Chairman of the AATC Board of Regents and will serve as East Coast Campus Acting President of the AATC.

Dr. Hurst's career includes stints at Air Products, EnerNOC, Edison Energy, and private consulting, and these experiences have shaped an extensive background in conserving, producing, and managing energy and, in turn, created successful relationships across numerous industries, allowing him to connect to customers from manufacturing to technology and all sizes and types in between.

"Curt's focus on helping people develop their talents and using critical technical resources to solve energy-related challenges makes him a perfect fit for the American Advanced Technology & Cybersecurity University. We are excited to have him on the team," said Dr. Tim Oergel, AATC Board Chair, Founder, and CEO.

"I am looking forward to working with AATC to further the mission to advance educational opportunities in the mission critical industry," said Dr. Hurst.

American Advanced Technology & Cybersecurity University offers accredited Data Center and Mission Critical Concentric Educational Programs and Services. The program provides students with a solid foundation of the fundamentals involved in working in a data center or mission critical environment. AATC is a veteran-owned university and provides programs and resources to assist transitioning U.S. Military Veterans interested in careers in mission critical operations.
