JFS Recruitment Series: The Aspiring Leader – Intensive training for the CEO2B!

Joint Force Solutions is pleased to announce the formation of its 2020 Veterans Executive Training (VET) Program. This is an exclusive peer-to-peer group of Transitioning Military Veterans (TMV) who are well on their way to the C-Level Executive Office. The group will work towards helping each other get expeditiously credentialed into the data center/mission critical operations industry to solve current transitioning challenges.

This is your opportunity to participate in a group whose members are peers with whom you can discuss your most difficult decisions. This is a CEO Model group of professionals who understand your challenges and pressures, because they have similar responsibilities. The VET Program is a professionally facilitated, peer-to-peer board of advisors, assembled to help TMV's address issues facing their company. This group provides a confidential, non-competitive environment for sharing experience-based knowledge to solve business problems faced by executives.

THANK YOU FOR YOUR SUPPORT!
