

Port Information

Roatán, Honduras

Roatan is the largest of Honduras' Bay Islands, it's 40 miles off the eastern coast of Honduras mainland. At 48 miles long and 5 miles wide, it's a rather large island, with much of the terrain mountainous jungle. This island is an old exposed coral reef, and is currently surrounded by vibrant live reefs making it a popular location for diving and snorkeling - with many sites accessible from shore. Roatan has abundant bird species, only a few mammals and reptile/snake species.

Excursions on the island often combine several natural features and industry unique to the island. Popular highlights are; horseback riding in Mahogany Bay, wildlife parks featuring sloths and native parrots, rum factory tours, chocolate factory tours, ATV jungle exploring, snorkeling, diving, fishing, zip lining and beach lounging.

Excursions are recommended as this port area is small, while under construction to expand, currently it only has a few offerings. The area directly outside the port is low income residential, there are no attractions within walking distance and many hagglers waiting for your exit.

Suggested excursions to make the most of your visit on the island:

Roatan Monkey & Sloth tour with chocolate, Rum tasting and Beach

From \$65.00
