

Freedom Fellowship Covid-19

Risk assessment.

The government have lifted restrictions on Churches, and there is now no need to record attendees, singing is permitted and social distancing no longer needs to be implemented.

However, as the virus is still in the community please consider the following:

Risk	Measure to limit
Individuals coming into the church with covid symptoms	Government advice to self isolate and get a PCR test should be followed if an individual has one of the main symptoms of Covid-19 (High Temperature, New continuous cough, Loss of taste/smell.) Those that are not vaccinated should do so if someone in their household has symptoms also.
Transfer of virus from touching surfaces	Hand sanitiser to be used when entering the church. Surfaces regularly cleaned.
Transfer of virus in the air	When the church is busier, and people cannot space out, open windows, and/or doors. Flush the main building with fresh air between services. Masks are available for those who would like them, and can be worn throughout the service, or just when coming/going.
Preacher/ worship leader facing congregation	Those participating in a role facing the congregation are encouraged to take a LFT
