

Heroic Maritime - Capabilities Statement: Government/Sovereign Clients

Creating competitive advantage by de-risking supply chains & operations

Heroic Maritime, a U.S. Service-Disabled Veteran-owned company, specializes in maritime domain consulting for government and military organizations.

Our expertise is in supply chain management for critical component support and the overt and covert movement of material support for Special Forces, the State Department, and Combatant Commands, emphasizing Logistics and Information Dominance.

Products

IW Policy and Procedures
Movement Plans & Method Statements
Risk & Threat Analyses

Services

Freight Forwarding / OTI
Charterer / Shipper's Protective Agency
Program & Movement Management

Notable Projects

- 1. Supply Chain Disruption Consultation for Military:** Consulted a Combatant Command on supply chain disruption strategies during an international military exercise, incorporating the perspectives of opposing forces (OPFOR) special operators, proxy forces, and non-state actors. Developed Red Team direct-action and Information Warfare (IW) scenarios to identify vulnerabilities and improve contingency planning for real-world operations.
- 2. US Government / DoD and Foreign Military Sales (FMS)** Heroic Maritime has successfully managed the door-to-door movement of military, State Department, and FMS materials and vehicles, ensuring compliance with US cabotage laws and Contracting Officer requirements. Our team's expertise in de-risking supply chains includes minimizing public and enemy visibility of these sensitive moves while maintaining efficiency and security.
- 3. Logistics Providers' Response to Government RFPs** Heroic Maritime has advised commercial companies on sales strategy positioning to win Government contracts.
- 4. Information Warfare:** Subcontracted for IW and site exploitation training for sovereign client's weapons interdiction program.
