“ A SUBSIDIARY OF WATER NOW, INC “

Demonstrations

We offer onsite demonstrations of the machine at NO EXPENSE to the customer, and with our design the setup is quick and easy.

At **Hydraspin USA** we utilize technology from South Africa, which has been in use there for over 20 years. Our machine has received praise for its ability to separate oil and water, in both open saltwater disposal pits or gun barrel tanks.

“ THE WORLD’S BEST OIL AND WATER SEPARATION TECHNOLOGY ”

Request a Demonstration and detailed information by contacting:
