## *What to Expect with Soul School*

---

No one can tell you what connecting to the Divine is like -- you must experience it for yourself, you must feel it for yourself. If you are wondering how people can read a strangers energy, or connect with departed loved ones, make accurate predictions about future events or even somehow know information that there would be no reason for you to know; then this course is for you!

The truth is, is we can all connect to the Divine spirit our Universal Whole. In fact, we do it every day and do not even realize we're doing it.

So many people believe that connecting to another source is something we should never be capable of doing in our humanity, or that it cannot be possible. You are reading this because you know it is possible. More than likely you have had your own personal experience with the supernatural or unexplained.

Not everyone will always believe in what we are capable of seeing, hearing, feeling, sensing, and knowing information from an unnamed, faceless presence. Some people even believe that it's not okay to connect to another energy source. But here is the truth; connecting to the other side is meant for everyone. It's part of our connection to everything else that has ever lived, is currently living, and will be living in the future--and we're a part of all of it. It's easy to learn how to do it, and you don't need any special tools, gifts, or lineage to connect. The only belief you need is that you can.

Connecting with the Divine is not about proving the existence of life after death is real--it's giving us the opportunity and ability to understand that we're so much more than we know now. It also helps and comforts us to realize that nothing ever dies--and everything and everyone is connected.

Learning to communicate with the Spirit world requires us to learn about ourselves, what we want out of our personal connections and how to communicate in a different way. This not only helps us connect with the other side, spirit guides, loved ones, and Angels but learning how to connect for yourself also helps you connect with people who are living.
