FOSTER-ADOPT CONTRACT

I _____, understand that I am fostering _____ the kitten/cat from Noah's Ark Animal Rescue. I am fostering with the intention of adopting him/her. His/her adoption is not official until he/she is spayed/neutered, required rounds of shots completed, cleared by our vet, home check is completed, all paperwork approved by a Noah's Ark representative, and adoption fee is settled. You **must** make the kitten/cat available on the dates of any and all of the vet appointments, which includes but is not limited to shots and being spayed/neutered. If you are NOT using our veterinary options, we are **NOT** responsible for the cost, but it is mandatory that the cat/kitten receives his/her shots within the month the vet recommends. Spay/neuter and the first rounds of shots are covered by NAAR only if you use our veterinary choice. If you should choose to use your own vet, you must first let a NAAR representative know prior in writing, and we have the right to contact the vet before anything is done. Proof of all the above being completed is mandatory to finalize any adoption.

Agreement between Noah's Ark Animal Rescue NY and volunteer foster home:

- Noah's Ark will provide veterinary care for our foster pets at no cost to the foster home, as long as the care is provided by our veterinarian and is approved by Noah's Ark prior to the appointment. If the illness/injury is due in any way to the foster family/their pets, they are 100% responsible for the vet bill, at our vet.
- Any illness or injury to a foster pet must be reported immediately to a representative of the rescue so that the pet may be cared for as needed. If not, this most likely will result in the responsibility of the vet bill to be paid by the foster parent, and/or further investigation/actions of possible animal neglect, including termination of the adoption process. Noah's Ark is not responsible for any monies spent while the foster animal was in their care.
- In order for a foster volunteer to be approved, all pets in the potential foster home must be current on vaccinations as recommended by their veterinarian.
- All cats and dogs being fostered are the property of Noah's Ark Animal Rescue NY, and will be turned over to the rescue at our request if needed.
- If a foster home volunteer seeks to adopt their foster pet, they can fill out an adoption application and notify the rescue.
- I recognize that any information that Noah's Ark Animal Rescue NY may have received about a dog or cat from the surrendering family or from the shelter from which the animal was obtained, could be false, incomplete, or unknown, and I will hold harmless Noah's Ark Animal Rescue NY, its agents, representatives, and members from any and all claims of liability for any conduct, behavior, damage, or injury caused by the cat or dog to any person or property on or after the date of this agreement; from any claim for damages known or unanticipated resulting from any claim for damages arising by my fostering of any dog or cat.
- I agree that taking a cat or dog into foster is a commitment for whatever length of time it takes to provide permanent placement for the animal.

I agree to the terms of this agreement as listed above. I understand that a home inspection and reference checks must be completed before the adoption application can be approved.
