

FAST BUCKET

LIGHT DUTY FIRE SUPPRESSION

FAST® Buckets increase the performance and flexibility of your fire suppression operations with volume control functionality standard on every bucket.

The simple time-on-trigger operation of the standard 2-wire hookup means a quick and easy gated bucket system – giving every pilot the ability to match capacity and capability to get the maximum load to the fire through a full cycle.

FEATURES

- Time-on-trigger volume control
- Multiple drops
- Simple 2-wire installation
- Less than 2 Amps power draw
- Collapsible, portable and lightweight
