Not sure who this is intended for but Q seems to be amused. Something coming next week.

3. Q indicates "Top 10 player [here now]". Assuming that means on the research board or at that IP address. Looked it up and it says Chantilly, VA.

4. An anon recalled someone who posted "hahahahaha" recently and I did too but couldn't remember who until he/she posted this which was posted the night of [@realDonaldTrump](#)'s [#SOTU](#). Did he know about the train "accident" w/GOP members heading to the retreat the next day?!

5. Q just posted this photo of a plane on a runway. Not sure if it is Dulles Airport which is just north of Chantilly (the IP address Q previously posted).

6. An anon matched the photo Q posted with a photo of the runway at Noi Bai Airport in Hanoi. Most anons agree this appears to be the best match so far. Not sure of the significance/who might be on that plane. Anon plane trackers noted a flt from Vietnam to Shanghai.

7. This is an even more conclusive graphic showing the photo Q dropped was very likely taken (from a window on the plane in front of the one in the photo) at Noi Bai International Airport in Hanoi.
