Early Q drop. An anon posted a great meme w/[@POTUS](https://twitter.com/POTUS) & Hussein and Q's response is....WOW!! Even if he DOES pull a stunt like this, couldn't he still be declared an enemy combatant? Will he try to escape to a country with no extradition to U.S. agreement?

That looks like the Punisher skull (a Marvel antihero) but it has been adopted by a lot of military units. More info here:

I would say that the member of Q on duty tonight is in JSOC or Military Intelligence. Remember Q is a group of less than 10 people.

2. An anon discusses changes coming to Twitter. Q says what @Jack is doing is for nefarious purposes. When they deleted @realDonaldTrump's account, they installed LdR/HRC approved access/censorship/tracking code. @Jack will be doing jail time.

Every user on Twitter will soon be able to apply for a coveted blue tick verification mark, the company's CEO Jack Dorsey said in a live stream on Thursday.

Using Periscope from the firm's San Francisco headquarters, Twitter executives revealed the process was being reworked from the ground up. They said the current system creates confusion and can imply credibility, but stressed that it will still be important to let users have a way to evaluate if profiles are legitimate.

4. This one still has me stumped. Q asks why Snowden would go public before his "so called final destination" which tells me he never ended up in Russia. I'm thinking he never left HK. Was he working for China??

Mar 9 2018 06:37:37 **Anonymous**ID: be8eca [599714](#)→ **NEW**

>>599682

True, but then why Snowden? Doesn't make sense. If they gave him the tool, Snowden isn't of value to the NSA other than a trophy. The tech lives outside of him and Q claims that they own CIA at this point (making assumptions). This is unfolding as if Snowden has something that no one else has access to. Snowden has fame for taking files and exposing, not of someone that developed technology that no one else has. Something not adding up.

Look at their positions.
Why are we giving him this much attention?
Why are we providing this much sensitive detail
in a public **[known]** forum?
Everything has meaning.

6. Interesting take by an anon on why Snowden is so important (and a liability to the Clowns).

► Anonymous 03/09/18 (Fri) 07:28:10 ID: 22dba3 No.600441 >>600446

Snowden is the central cog in the machine due to what he was involved in. He was the hoop that ties all the bad things together.
He can be used to validate the CIA effort to take down the NSA.
He can validate the black ops operations since he has access to that information.
He was a key figure in the selling of U1 and the clinton's/obamas dirty secret.
His security role would allow him to be able to find all the networks for a total wipe of the cabal.
Snowden isn't important because of influence, power, or goal. He is because others use him as a tool for those things.
