3. Google is behind the "Russian Bots". Just another lie to push the "Russia hacked our election" bullsh\*\*. Remember, Eric Schmidt (Alphabet CEO) was forced to resign. @POTUS has EVERYTHING on ALL of these crooks.

"They never thought she would lose."

**Twitter says it's blocked 50,000 bots linked to Russia – and is alerting 677,775 fans**  
Twitter says it has followed through on its commitment to Congress by identifying and suspending more than 50,000 automated accounts linked to Russia.

4. This was posted a couple days ago (on 4chan) by an anon who claims to work for Google. It sounds VERY plausible and something the Dems would do and then blame the Russians.

Matches what Q said in last drop:

As the House Intelligence Committee has concluded, there was no collusion between Russia and the Trump Campaign. As many are now finding out, however, there was tremendous leaking, lying and corruption at the highest levels of the FBI, Justice & State.
