Guessing premature release of news re: Mueller isn't investigating @POTUS for criminal act forced some kind of op last night. Tonight is night 2. Planes involved; force projection is show of military power.

2. Lots of speculation that recent military plane & helo crashes are not accidental. The ability to remotely take control of planes exists. Is this a CLOWN attempt to stop funding NG & border wall by highlighting need to upgrade military equip? Open borders is huge cash cow.

I always suspected these ship crashes were not accidental. Bad actors have the capability to hack into electronic systems on planes, trains, ships, and cars and remotely wreak havoc.

5. The Chinese Space Station that came crashing down appears to be another example of bad actors hijacking systems remotely. Are CLOWNS responsible? I can't imagine we would do that unless that satellite was really CLOWN controlled & we retaliated for the military "accidents".

6. Hussein was in China last Nov, after @POTUS was there. What was he up to? Some anons speculate he sold Xi classified military info. IF China is really responsible for taking out our planes, helos, & ships, it would be considered acts of war. Not convinced China is responsible.
