McCabe wrote an e-mail to top FBI officials with the subject, "Flood is coming."

4. Nellie Ohr, wife of fmr Assoc Dep AG Bruce Ohr, was hired by Fusion GPS to conduct opposition research for HRC vs Trump campaign & had a HAM Radio license in order to communicate without NSA detection of her comms. Q says she failed! HA!

Did Fusion GPS's Researcher Avoid Surveillance With A Ham Radio?
It seems Nellie Ohr was well aware the National Security Agency can intercept and store every communication on the Internet.

1. 🤔 Sometimes Conspiracy Theories are not theory.

Nellie Ohr, is the wife of DOJ Deputy Bruce Ohr and she is an employee with Fusion GPS. Why would she apply for a Ham Radio License a month after Fusion GPS contracted with MI6 agent Christopher Steele?

Excerpt of:
Letter from Senator Ron Johnson to FBI Director Wray.

- January 8, 2017, 12:08 p.m.** Then-FBI Deputy Director Andrew McCabe sent an email to senior FBI leadership with the subject line "Flood is coming." Mr. McCabe wrote, "CNN is close to going forward with the sensitive story. . . . The trigger for them [CNN] is they know the material was discussed in the brief and presented in an attachment."⁸

- January 8, 2017, 12:55 p.m.** Mr. McCabe emailed then-Deputy Attorney General Sally Yates and then-Principal Deputy Attorney General Matthew Axelrod with the subject line "News."⁹ Mr. McCabe wrote, "Just an FYI, and as expected, it seems CNN is close to running a story about the sensitive reporting."¹⁰

RAPID FIRE = a movie by that name involving a corrupt FBI
 'Flood is coming' = FBI deputy director Andrew McCabe sent an email with the subject line "Flood is coming" Indicating CNN is going to run a sensitive story
 [CNN] = CNN is targeted but then so is McCabe for classified information to them.

It's just a public hash of a private passphrase.
The picture contains a series of previous posts signed with 'Q' and says they're correct - in the context of disinformation spreading around.
The addition of a Trip aided clarity and protected against derailment.

Q's third post with a tripcode. Note the image and filename.

 (PST) thanks twitter!

Flight Leaves at 5:17 PM (PST)
Flight Arrives at 9:45 PM (PST)
4 Hours and 31 Minutes
(AF1 flies faster than commerial)

Possible flight path passes over Hong Kong 3/4 of the way through flight. Puts it at a time around 8:40 PM (PST) which is

Trump's possible flight path

Time's given in tweet won't be exact liftoff / landing times, but timeframes can be estimated.

Q's Picture is only 9 minutes off estimated flight path time

Confirmed. These pictures taken from their vantage points are within a 9 minute error margin of the very flight POTUS took on the very day and posted by Q directly after they were taken.

Therefore. They're being posted by the same person who had access to that series of pictures.
