3. Guessing "Full moon coming" in last drop to signify something big happening next Wed or Thurs.

"The next full moon will be overnight on Wednesday and Thursday of **June 27** and **June 28**. That's because the full moon occurs at 12:53 a.m. EDT (0453 GMT), so depending on which time zone you live in, the full moon will be at its best late Wednesday (**June 27**) or in the wee hours of Thursday (**June 28**)."

Proolly going down the wrong road here, but ...

Q post about sun, moon, etc.

Elon Musk.

Heat = Tesla cars exploding

Moon = Full moon 6/27 (or 6/28)

Stars = Musk b-day 6/28

Missions = Space X launch 6/29

Don't know if the dates mean anything, other than pointing to Musk (raw speculation at this point).

Question: Anybody have info on Elon Musk? Seems to be Eric Schmidt vs. Elon Musk re: AI.

Tesla cars exploding. Any info about who was killed in one or more of these? Links to anyone in cabal?

Would Musk be someone who might testify about something? Fraud in the government handouts for alternate energy?

Anyone? Bueller ... Bueller?

Why wasn't HRC prosecuted for the emails? Put simply, Obama ultimately OK'd by using the non govt email addy to communicate w/ Clinton. Obama also had an alias along with each of his cabinet members. Therefore indicting HRC would lead to indicting Obama & his cabinet etc which could never happen. Remember he lied about knowing but that ultimately came out in the dump. Poof!

Obama's Conflict Tanked the Clinton E-mail Investigation — As Predicted

By ANTHONY C. SEXTON | November 3, 2017 10:00 AM

Hillary couldn't be proven guilty without proving the president guilty as well.

How is this not classified?

So exonerated Hillary Clinton's close aide and confidante, Huma Abedin. The FBI had just shown her an old e-mail exchange, over Clinton's private account, between the then-secretary of state and a second person, whose name Abedin did not recognize. The FBI then did what the FBI is never supposed to do: The agents informed their interviewee (Abedin) of the identity of the second person. It was the president of the United States, Barack Obama, using a pseudonym to conduct communications over a non-secure e-mail system — something anyone with a high-level security clearance, such as Huma Abedin, would instantly realize was a major breach.

Still, the difference in scale is not a difference in kind. In terms of the federal laws that criminalize mishandling of classified information, Obama not only engaged in the same type of misconduct Clinton did, he engaged in it with Clinton. It would not have been possible for the Justice Department to prosecute Clinton for her offense without its becoming painfully apparent that (1) Obama, too, had done everything necessary to commit a violation of federal law, and (2) the communications between Obama and Clinton were highly relevant evidence.

Obama not only engaged in the same type of misconduct Clinton did, he engaged in it with Clinton.

Indeed, imagine what would have happened had Clinton been indicted. The White House would have attempted to maintain the secrecy of the Obama-Clinton e-mails (under Obama's invocation of a bogus "presidential communications" privilege), but Clinton's defense lawyers would have demanded the disclosure of the e-mails in order to show that Obama had engaged in the same misconduct, yet only she, not he, was being prosecuted. And as most experienced criminal-law lawyers understand (especially if they've read a little Supreme Court case known as *United States v. Nixon*), it is an argument that Clinton's lawyers would have won.

Why wasn't HRC prosecuted for the emails? Put simply, Obama ultimately OK'd by using the non govt email addy to communicate w/ Clinton. Obama also had an alias along with each of his cabinet members. Therefore indicting HRC would lead to indicting Obama & his cabinet etc which could never happen. Remember he lied about knowing but that ultimately came out in the dump. Poof!

17. Email investigation least of HRC crimes. Weiner laptop > crimes vs children, CF, FBI covering HRC crimes, DOJ texts/emails clsfd highest lvl likely re: POTUS 187 talk, tarmac deal, all quietly referred to Huber. RR is done. Scope/size biggest in history. Grand jury empaneled.

"Attorney General Jeff Sessions has also said U.S. Attorney John Huber is investigating claims of FBI and DOJ misconduct related to these actions, noting that Huber would be "conducting his work from outside the Washington D.C. area and "in cooperation" with Horowitz."

"This is not the end of the process. United States Attorney John Huber continues his work in cooperation with the Inspector General to review certain prosecutorial and investigative determinations made by the Department in 2016 and 2017," Sessions said. He has reviewed this report and, based on its findings and his own investigation, will provide recommendations as to whether any matter not currently under investigation should be opened, whether any matters currently under investigation require further resources, or whether any matters merit the appointment of Special Counsel."

SC = restart w/ significantly less staff = stupid (Reddit Summary)

- Professor Turley is a very respected liberal law professor and longtime civil libertarian. Has been critical of both parties over the years.
- Turley says the use of John Huber gives the IG the prosecutor he needs to bring charges and seek indictments. (No need to go through RR which is critical)
- Huber is conducting a full-fledged criminal investigation into all the matters Republicans are calling for a special counsel to investigate.
- Huber has been investigating these possible crimes for five months (Now seven), since November 2017.
- By giving the IG a prosecutor they can now go after the deep state without looking like a political witch hunt. This is critical.
- Sessions informed Congress in his letter that all the matters recommended for investigation by Goodlatte, Gowdy, and Grassley are "fully within the scope of [Huber's] existing mandate." He also informed the chairmen that Inspector General Michael Horowitz, who is working with Huber, has a staff of 470 investigators, giving Huber access to enormous investigative firepower that far exceeds the staff of any special counsel. (Who needs a SC with that type of manpower?)
- The inspector general's jurisdiction to conduct civil and criminal investigations includes "actions taken by former employees after they have left government service." Then Huber can act on any of those matters.

<https://pbs.twimg.com/media/DgA8JmYXcAAPfA.jpg>

-This is HUGE A Grand Jury can be empaneled anywhere, in any deep red state, away from D.C. (This is very important and why Trump needed to appoint as many Judges as possible)

-Huber and Horowitz can accomplish everything a SC can do.

-If Sessions feels that charges should have been made that weren't, he can still appoint a SC to make that happen.

-Huber is a lawyer from deep red Utah, not the D.C. swamp. -"If a special counsel were appointed, there would be a great deal of delay," Turley stated, versus the team of Huber and Horowitz, who are already five months into this investigation. (It's too late to even appoint a SC. Charges can be filed before midterms.)

-From /u/ClardicFug - Huber and Horowitz were both appointed to their positions by the Obama administration. This helps optics a lot. Pretty much decimates the "Trumped rigged the investigation" argument that's sure to be made.
