The Antitrust Laws

Congress passed the first antitrust law, the Sherman Act, in 1890 as a "comprehensive charter of economic liberty aimed at preserving free and unfettered competition as the rule of trade." In 1914, Congress passed two additional antitrust laws: the Federal Trade Commission Act, which created the FTC, and the Clayton Act. With some revisions, these are the three core federal antitrust laws still in effect today.

The antitrust laws proscribe unlawful mergers and business practices in general terms, leaving courts to decide which ones are illegal based on the facts of each case. Courts have applied the antitrust laws to changing markets, from a time of horse and buggies to the present digital age. Yet for over 100 years, the antitrust laws have had the same basic objective: to protect the process of competition for the benefit of consumers, making sure there are strong incentives for businesses to operate efficiently, keep prices down, and keep quality up.

Guide to Antitrust Laws

Free and open markets are the foundation of a vibrant economy. Aggressive competition among sellers in an open marketplace gives consumers — both individuals and businesses — the benefits of lower prices, higher quality products and services, more choices, and greater innovation. The FTC's competition mission is to enforce the rules of the competitive marketplace — the antitrust laws. These laws promote vigorous competition and protect consumers from anticompetitive mergers and business practices. The FTC's Bureau of Competition, working in tandem with the Bureau of Economics, enforces the antitrust laws for the benefit of consumers.

 **Iron Eagle (1986)**

Plot Summary (2)

When Doug's father, an Air Force Pilot, is shot down by MiGs belonging to a radical Middle Eastern state, no one seems able to get him out. Doug finds Chappy, an Air Force Colonel who is intrigued by the idea of sending in two fighters piloted by himself and Doug to rescue Doug's father after bombing the MiG base. Their only problems: Borrowing two fighters, getting them from California to the Mediteranean without anyone noticing, and Doug's inability to hit anything unless he has music playing. Then come the minor problems of the state's air defenses.

—John Vogel <jlvogel@comcast.net>

A young pilot plans a rescue mission when his father, an Air Force Colonel, is shot down over enemy territory and captured.

Remember Trump just added more sanction on the oligarchs.

But good guys overrode the controls and looped de looped the plane before crashing it in ocean, sending a message to cabal that it does not have control of any planes. Remember the failed Jet Blue at DC.
