LONDON (Reuters) - Congressman Devin Nunes, chairman of the U.S. House Intelligence Committee and a strong supporter of President Donald Trump, sought unsuccessfully to meet chiefs of Britain's three intelligence agencies on a recent visit to London, according to two sources familiar with his itinerary.

Mueller hasn't interviewed Bruce Ohr, but apparently JOHN HUBER hasn't either, even though Huber was tapped by Sessions to investigate the FISA abuses. More reason to wonder how effective a US attorney can be cleaning up corruption in Washington when he's based in Salt Lake City

More and more, Mueller's investigation into Russia "collusion" appears to be designed not to protect the country but to protect his former FBI/DOJ regime and their political espionage crimes. He has to find something, anything, to justify their crimes

**Special Prosecutor Tapped by Sessions to Investigate FISA Abuses HAS NOT Interviewed Bruce Ohr**

In March, Attorney General Jeff Sessions announced he would not be appointing a second special counsel to investigate crimes committed by Obama's FBI and DOJ.

Rather, AG Sessions revealed U.S. Attorney John Huber will be the 'top federal prosecutor' who will be investigating FISA abuses.

<https://pbs.twimg.com/media/DizOf8GU0AA95H-.jpg>

U.S. Attorney John Huber was first appointed to his position by Barack Obama in 2015.

Five months into John Huber's FISA abuse investigation and he still has not interviewed twice-demoted DOJ official Bruce Ohr.

Ohr is a key player in the FISA abuse scandal, so why hasn't he been interviewed by Huber or Mueller??

Bruce Ohr was acting as a backchannel for dossier author Christopher Steele after the FBI terminated him in November of 2016 for breaking protocol by leaking to the media.

"More of a reason to wonder how effective a US Attorney **John Huber** can be cleaning up corruption in Washington when he's based in Salt Lake City," investigative reporter, Paul Sperry said.

Investigative reporter John Solomon also revealed Tuesday that Robert Mueller hasn't interviewed Bruce Ohr either.

Bruce Ohr arrived at Capitol Hill Tuesday morning for a closed-door grilling from House Oversight and House Judiciary members over his contacts with dossier author Christopher Steele.

GOP lawmakers said Tuesday afternoon that Bruce Ohr was being cooperative and answering questions at the closed-door deposition.

Bruce Ohr, former FBI lawyer Lisa Page and Fusion GPS co-founder Glenn Simpson may be called back to testify together to iron out the discrepancies in their testimonies.

Dear Attorney General Sessions and Deputy Attorney General Rosenstein:

As you know, the Department of Justice Inspector General currently is reviewing the Department's and the Federal Bureau of Investigation's handling of the Clinton email investigation.<sup>1</sup> Recently, the Attorney General requested that he also review questions about the Department's and the FBI's actions in seeking a Foreign Intelligence Surveillance Act (FISA) warrant against former Trump Campaign adviser Carter Page.<sup>2</sup> On February 28, based on reviews of related documents and facts gathered thus far in the Committee's oversight work, Chairman Grassley and Chairman Graham also requested that the Inspector General broadly review more than 30 classified and unclassified questions related to the FBI and the Department's handling of the so-called Trump-Russia investigation and related matters prior to the appointment of Special Counsel Robert Mueller.<sup>3</sup> For reference, we have attached the unclassified portion of that request.

The Honorable Michael E. Horowitz  
Inspector General  
U.S. Department of Justice  
950 Pennsylvania Avenue, N.W.  
Washington, D.C. 20530-0001

Dear Inspector General Horowitz:

We respectfully request that you conduct a comprehensive review of potential improper political influence, misconduct, or mismanagement in the conduct of the counterintelligence and criminal investigations related to Russia and individuals associated with (1) the Trump campaign, (2) the Presidential transition, or (3) the administration prior to the appointment of Special Counsel Robert Mueller.

Over the past year, the Department of Justice has made a number of documents relating to these issues available for review by the Chair and Ranking Member of the Senate Judiciary Committee and its Subcommittee on Crime and Terrorism. These documents have raised several serious questions about the propriety of the FBI's relationship with former British Intelligence agent Christopher Steele, including its use of allegations compiled by Mr. Steele for Fusion GPS and funded by Perkins Coie on behalf of the Democrat National Committee and the Clinton campaign. These documents also raise questions about the role of Bruce Ohr, a senior Justice Department official whose wife worked for Fusion GPS, in continuing to pass allegations from Steele and Fusion GPS to the FBI after the FBI had terminated Mr. Steele as a source.

The Intelligence Community Inspector General (ICIG) found an “anomaly on Hillary Clinton’s emails going through their private server, and when they had done the forensic analysis, they found that her emails, every single one except four, over 30,000, were going to an address that was not on the distribution list,” Republican Rep. ## Chinese hackers stole sensitive data on US Navy submarine weaponry, report says

By Travis Fedschun | Fox News

**Chinese hackers steal sensitive data on submarine weaponry**

U.S. officials say hackers targeted a Navy contractor and stole a massive amount of sensitive data on undersea warfare from his computers.

<https://pbs.twimg.com/media/DizaOPxUYAAmyRP.jpg>

The breaches, which took place in January and February, included leaked plans to develop a supersonic anti-ship missile for use on U.S. Navy submarines, [U.S. officials told the Washington Post](#).

A contractor who works for the Naval Undersea Warfare Center in Newport, R.I. -- a research and development center for submarines and underwater weaponry -- was the target of the hackers, the Post reported.

While the unnamed officials did not identify the contractor, they told the newspaper that a total of 614 gigabytes of material was taken.

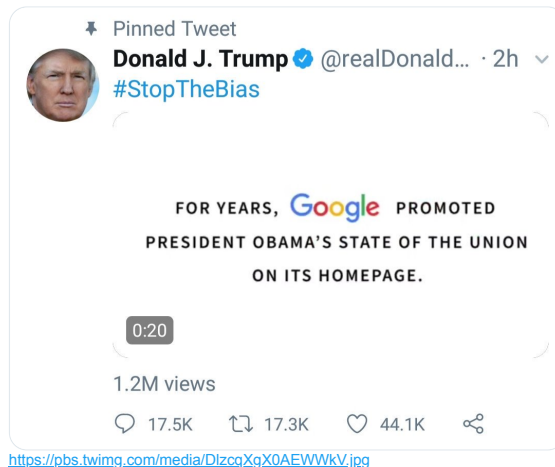

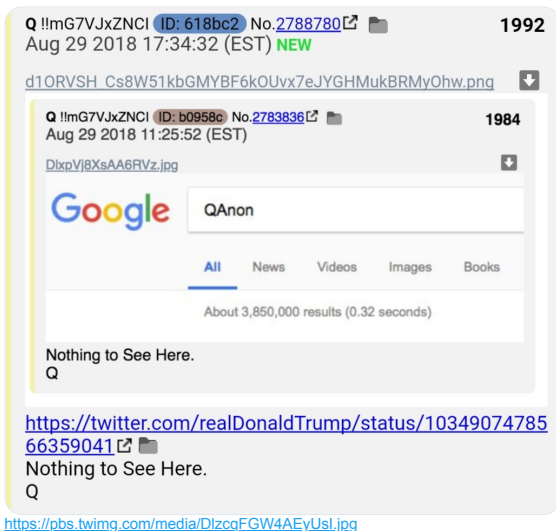

Included in that data was information about a secret project known as Sea Dragon, in addition to signals and sensor data and the Navy submarine development unit’s electronic warfare library. The Washington Post said it agreed to withhold some details of what was stolen at the request of the U.S. Navy over fears it could compromise national security.

**Gohmert on FBI's Claim That No Evidence Was Found Regarding Hillary Clinton Server Breach**

Washington, August 29, 2018 | 0 comments

WASHINGTON, D.C. –Congressman Louie Gohmert (TX-01) released the following statement today regarding the claim made by the FBI that they have 'not found any evidence' regarding Hillary Clinton's server being breached:

"It's not surprising that the FBI 'has not found any evidence' regarding Clinton's servers being breached. Like I stated to Former FBI Agent Peter Strzok in the House Judiciary Hearing, it was the Obama-appointed Intelligence Community Inspector General that discovered the breach. It was not the FBI that found it, so their statement was technically correct, but very deceptive in its omission.

When I asked Peter Strzok about this, he said that he remembered being briefed by the ICIG investigator but did not remember what it was about. That is not credible. We know that the FBI's head of counter-intelligence, Mr. Strzok, was doing all he could to help protect Hillary Clinton. So, when the Intel IG investigator came to report to Mr. Strzok that a specific foreign intelligence entity (which was not Russian) was receiving virtually all the emails from Secretary of State Clinton's private server in real time, it is not remotely believable that he would not remember the conversation. In fact, if he testified that he remembered the briefing, he would be potentially incriminating himself in a coverup or obstruction role.

One thing has been made acutely clear – partisan politics, sadly, are very much at play within some of the leadership at the FBI. Though Strzok and other FBI personnel were briefed on Hillary Clinton's server being hacked, as now reported, they knew this would devastate Hillary Clinton's chances of being elected and they were not about to let that happen.

Fortunately, progress is currently being made at the FBI and there are good people there who are making a difference. Unfortunately, the FBI's deceptive omission in its statement reveals that the FBI has not been completely cleansed of the partisanship that so pervasively corrupted it in Washington, DC."
