2. Here's the link embedded in last Q drop re: Military Detention of U.S. citizens. Bottom line: @POTUS has the authority, as Commander-in-Chief, to detain "enemy combatants", including U.S. citizens.

Office of Legal Counsel

Office of the Deputy Assistant Attorney General Washington, D.C. 20530
June 27, 2002

Memorandum for Daniel J. Bryant
Assistant Attorney General, Office of Legislative Affairs

Re: Applicability of 18 U.S.C. § 4001(a) to Military Detention of United States Citizens

You have asked us whether the detention of United States citizens as enemy belligerents by the U.S. Armed Forces violates 18 U.S.C. § 4001(a) (2000). We understand that the question has arisen in briefings before the Senate Judiciary Committee and the Senate Select Committee on Intelligence concerning the recent transfer of Jose Padilla, aka Abdullah al Mujahir, from the custody of the Department of Justice to the control of the Department of Defense.

Section 4001 of Title 18 states:

(a) No citizen shall be imprisoned or otherwise detained by the United States except pursuant to an Act of Congress.

(b) (1) The control and management of Federal penal and correctional institutions, except military and naval institutions, shall be vested in the Attorney General, who shall promulgate rules for the government thereof, and appoint all necessary officers and employees in accordance with the civil-service laws, the Classification Act, as amended and the applicable regulations.

(2) The Attorney General may establish and conduct industries, farms, and other activities and classify the inmates; and provide for their proper government, discipline, treatment, care, rehabilitation, and reformation.

18 U.S.C. § 4001.

As we explain below, the President's authority to detain enemy combatants, including U.S. citizens, is based on his constitutional authority as Commander in Chief. We conclude that section 4001(a) does not, and constitutionally could not, interfere with that authority.

I.

In order to understand the scope of section 4001(a), we first set out the proper context established by the President's authority to detain enemy combatants during war. That authority arises out of the President's constitutional status as Commander in Chief. Under the Commander in Chief Clause, the President is authorized to detain all enemy combatants, including U.S.

2019 AMENDMENTS TO THE MANUAL FOR COURTS-MARTIAL

9/28/2018

For those interested, here are some Army training materials on the new amendments to the Manual for Courts-Martial. This is an executive summary of the major changes to military law starting in January 2019. Over the next three months we'll be updating our page, our book, and our blog to reflect these major changes.

The manual modernizes several criminal offenses involving computer crimes, retaliation, credit card fraud, and updates definitions. For instance, there is a lower blood alcohol level in drunk driving cases and new definitions in stalking and assault cases.

One of the most notable changes is the creation of a new special court-martial forum composed of a military judge alone and new procedures for selecting members in other special and general courts-martial. We will be updating our panel selection page soon to reflect those changes.

what REALLY happened on 11/11? the shot heard round the world, thats what - the day we were all set free. we just dont know it yet - but it will be talked and written about for millenia to come

took the form of an energy wave set up by forces far beyond our public knowledge - call it God or supreme being or friendly aliens or whatever, there is no dispute it occurred.

Here is the latest summary: Just before 9.30am on Sunday 11 November, a series of unusual seismic pulses rippled around the world almost undetected. They crossed the Atlantic, and were picked up in Chile, New Zealand, Canada, and even Hawaii nearly 11,000 miles away, the National Geographic reports. The bizarre waveform is what scientists call "monochromatic". Earthquakes normally produce waves of so many different frequencies, the wave readings appear more jumbled.

But the mystery waveform from was a crisp zigzag, which repeated after steady 17-second intervals. GET THAT ANONS? 17 SECOND INTERVALS. Scientists admitted the wave forms were "... too nice. They're too perfect to be nature," said University of Glasgow's Helen Robinson, who is study for a PhD in applied volcanology.

<https://www.independent.co.uk/news/world/earthquake-seismic-waves-mayotte-madagascar-volcanic-activity-science-a8659236.html>

So what was it? Well we know it won't "be for everyone." Why? Because so many choose blue pill - but for those of who have already, or will choose red pill - all will become clear in the fullness of time.

<https://pbs.twimg.com/media/DtcW3aDXoAI3wB3.jpg>

17. It's always telling when MSM ignores things we KNOW are happening thanks to social media/citizen journalists around the world. Clearly these riots in France, Belgium, Germany, EU, Iran, etc. go against their globalist agenda/narrative. People are fighting AGAINST globalism!

Ask yourself a very simple question, why is there a total & complete MSM blackout re: France, Belgium, Germany, EU riots etc?

When you are awake you can SEE CLEARLY.

19. Typing through tears. This song already had significant meaning to me & hearing every Trump rally open w/this song always gives me a lump in my throat. Hearing this man belt it out so beautifully really touched me. Thanks for sharing, @Jamierodr10!
