New Q (7Mar): Long piece detailing origin of Google (DARPA research grants to Sergey Brin & Larry Page) & how our gov't harnessed the power of internet as mass surveillance tool to track our every move fm the start.

Google's true origin partly lies in CIA and NSA research grants for mass surveillance

The story of the deliberate creation of the modern mass-surveillance state includes elements of Google's surprising, and largely unknown, origin. It is a somewhat different creation story than the on...

Google's true origin partly lies in CIA and NSA research grants for mass surveillance

By Jeff Nesbit • December 8, 2017

Former director of legislative and public affairs, National Science Foundation

REUTERS BRIAN SNYDER

They're always watching.

Two decades ago, the US intelligence community worked closely with Silicon Valley in an effort to track citizens in cyberspace. And Google is at the heart of that origin story. Some of the research that led to Google's ambitious creation was funded and coordinated by a research group established by the intelligence community to find ways to track individuals and groups online.

Why did @Snowden only engage and attack the NSA?
If @Snowden really cared about privacy/citizenship awareness, why didn't he expose the C_A's main programs?
@Snowden was priv to DARPA, IQT, and NSA SURV / COV programs.

Why did @Snowden only focus on NSA?

Where did @Snowden work prior to NSA?

ASK YOURSELF A VERY SIMPLE QUESTION, WOULD YOU RELEASE (GO LIVE) TO THE PUBLIC ACROSS THE MEDIA ALL HIGHLY CLASSIFIED MATERIAL (NSA)PRIOR TO.....GETTING TO YOUR END DESTINATION?

OR, WOULD YOU LOGICALLY TRAVEL TO YOUR END DESTINATION, THEN RELEASE PUBLICLY?

WAS RUSSIA THE PLANNED LOCATION?

WHY RUSSIA?

WHY DID CHINA (HKG) LET HIM OUT OF THE COUNTRY?

WAS THERE A 'RED' SECURITY ALERT PUT OUT TO PREVENT PASSPORT TRAVEL ACROSS ALL NATIONS?

WHY DID CHINA GRANT ACCESS TO TRAVEL W/ THE BLOCK IN PLACE?

WHY RUSSIA?

About In-Q-Tel

IQT is the not-for-profit strategic investor that accelerates the development and delivery of cutting-edge technologies to national security agencies. Our work bridges the gap between the challenging technology needs of our government partners, the rapidly changing innovations of the startup world, and the venture community that funds those startups.

<https://pbs.twimg.com/media/D1DHdOAXQAAWONk.jpg>

History

IQT was established in 1999 to ensure that our country's intelligence agencies had access to innovative technologies from the startup community to help protect and preserve our nation's security.

CIA leaders recognized that technological innovation had largely shifted from the purview of government R&D and large organizations to entrepreneurs and the startup community who were developing much-needed technologies more quickly and less expensively, and continue to do so today.

5. Article describes creepy murals & likely underground bunkers beneath Denver Airport. Murals appear to depict apocalyptic, mass-genocide event after which a "less populated, more harmonious new world" is created.

Something is rotten in the Denver airport (13 Photos)

Something stinks in the Denver International Airport. It has been rumored that a 5 building bunker exists below the airport and the POTUS has been ushered there in moments of Pending DOOM.

UPDATE BY LEO: President Obama was in Denver Sept 27th last year when **Comet Elenin** passed by the earth, "barely missing" us by 22 miles. Some say, that if the comet would have struck earth, it's back to the stone-age for us. Nonetheless, there was a chance that it could have hit and President Obama was conveniently ushered to Denver... which, in my opinion, adds more to the existence of not only a military bunker, but also the largest, most advanced bunker in the US - because the President wouldn't go to some half-ass bunker if there was a threat of complete world destruction. Just sayin..

UPDATE 2: Just got a weird phone call from "Government Affairs" (whatever that is) on our office phone caller ID and they hung up after we answered. If this post disappears for some reason tomorrow, you know why...and you should go watch this **sexy video**.

Define 'LifeLog' [DARPA].
"an ontology-based (sub)system that captures, stores, and makes accessible the flow of one person's experience in and interactions with the world in order to support a broad spectrum of associates/assistants and other system capabilities". The objective of the LifeLog concept was "to be able to trace the 'threads' of an individual's life in terms of events, states, and relationships", and it has the ability to "take in all of a subject's experience, from phone numbers dialed and e-mail messages viewed to every breath taken, step made and place gone".
Define 'FB'.
The Facebook service can be accessed from devices with Internet connectivity, such as personal computers, tablets and smartphones. After registering, users can create a customized profile revealing information about themselves. Users can post text, photos and multimedia of their own devising and share it with other users as "friends". Users can use various embedded apps, and receive notifications of their friends' activities. Users may join common-interest groups.

Keking out right now. Pretty sure I found something. Rip me apart if I'm wrong though. So many shills on here. You're missing crumbs. Look here, not [here]. Responding to post 2996 Q says, "how is that possible for a 'supposed' non_gov entity?"

How is it possible that FB tracks data even when the app is deleted? In post 2993 (3/7/109) Q is calling out @Snowden. So I used the filter to find posts relating to WikiLeaks. Q's post from July 31, 2018 is a screenshot of the Wikileaks Vault 7... released MARCH 7. Sounds confusing just trying to show you my thought process, stay with me, it makes sense.

"Unlike bullets, bombs or missiles, most CIA malware is designed to live for days or even years after it has reached its 'target'. CIA malware does not 'explode on impact' but rather permanently infects its target. In order to infect target's device, copies of the malware must be placed on the target's devices, giving physical possession of the malware to the target. To exfiltrate data back to the CIA or to await further instructions the malware must communicate with CIA Command & Control (C2) systems placed on internet connected servers. But such servers are typically not approved to hold classified information, so CIA command and control systems are also made unclassified." FROM VAULT 7

Links below that direct you to user forums on how to not leave a digital fingerprint that can be associated with the CIA, and how to construct an imitation fingerprint. Using Facebook as their 'fingerprint' they are able to install malware on peoples' phones, tablets, and computers which relay all data back to a central server using HIVE.

I suggest all anons who have given up life to research this shit like me should read this document to completion.

<https://pbs.twimg.com/media/D1HLn6JUyAA15T0.jpg>

I noticed the enormous amount of comparisons between "packets of data" and "bombs", dunno why probably just autistic. I looked back in the Qmap and on March 5, 2019 an anon posted how London Police "called them bombs not suspicious packages" Q responds in 2974 with "Fire".

I went into Vault 7 Projects, search for "fire" "Angelfire is an implant comprised of five components: Solartime, Wolfcreek, Keystone (previously MagicWand), BadMFS, and the Windows Transitory File system"

FUCKING KEYSTONE KEK

"Keystone is part of the Wolfcreek implant and responsible for starting malicious user applications. Loaded implants never touch the file system, so there is very little forensic evidence that the process was ever ran." This makes post Q 381 much easier to understand
"We Won't telegraph our moves to the ENEMY. We will however light a FIRE to flush them out."
Q

Q is saying that they are using the Anglefire to predict the Deep State's moves without being detected. In the user files it says a key must be used to open magicwand (keystone). In Q post 270 he says that ADM R/NSA (W&W) + POTUS/USMIL = Apply the Keystone. Paint the Picture. In post 167 Q says POTUS opened the door of all doors. Expand your thinking. What is the keystone? Now this could be confirmation bias but based off of what we just read we can now infer that Q was saying trump gave Admiral Rogers permission to use Keystone and Activate malware in order to collect data on DS. Furthermore who uses a magicwand? A wizard. (W&W)
