New Q (14 Mar): Link to [@RepDougCollins](https://twitter.com/RepDougCollins)'s site where he's posting transcripts of key FBI/DOJ witnesses (e.g., Bruce Ohr & Lisa Page). Today he posted Peter Strzok's transcript:

DOJ Deal With FBI on Clinton Foundation

In one of the most explosive parts of Strzok's testimony, he revealed that the Department of Justice struck a deal with the FBI not to investigate the Clinton Foundation emails.

Then-majority general counsel Zachary Somers asked Strzok if the "the Clinton Foundation was on the server."

Strzok said he believed that it was "on one of the servers, if not the others." However, he noted that there was an agreement between the DOJ and Hillary Clinton that the FBI was not allowed to search Clinton Foundation emails for that information.

Several sources have told SaraACarter.com that there is an ongoing FBI investigation into the Clinton Foundation. One of the FBI field offices believed to be part of the ongoing investigation is in Little Rock, Arkansas, the former home of President Bill Clinton and his wife.

"Were you given access to those emails as part of the investigation," Somer's asks Strzok.

"We were not. We did not have access," Strzok said.

He said the FBI eventually was granted access to the Clinton's server, but only after negotiating with Clinton's attorneys.

To date, Lisa Page's infamy has been driven mostly by the anti-Donald Trump text messages she exchanged with fellow FBI agent Peter Strzok as the two engaged in an affair while investigating the president for alleged election collusion with Russia.

Yet, when history judges the former FBI lawyer years from now, her most consequential pronouncement may not have been typed on her bureau-issued Samsung smartphone to her colleague and lover.

Rather, it might be eight simple words she uttered behind closed doors during a congressional interview a few weeks ago.

"It's a reflection of us still not knowing," Page told Rep. John Ratcliffe (R-Texas) when questioned about texts she and Strzok exchanged in May 2017 as Robert Mueller was being named special counsel to take over the Russia investigation.

If the FAKE Steele Dossier constituted the 'bulk' of the 'facts submitted' to FISC to obtain FISA warrant(s) against POTUS....
Dossier dismissed as FAKE/BASELESS.
If Mueller was appointed as SC based on the Dossier - and the Dossier was proven to be FAKE/DISINFORMATION - and the Dossier was proven to be the 'bulk' of the information submitted to FISC in order to obtain the warrants (+FISA signers 'pre-mediated' neglect to disclose the actual FACTS (lied to)) - then how is Mueller still SC?
BO never called to testify re: Mueller?
Mueller investigating 'Russian Collusion'?
Why would Mueller not contact BO?
BO was the 'BACKCHANNEL' between FBI/DOJ & STEELE.
Why wouldn't Mueller seek testimony?
Mueller: Impeach POTUS operation?
If impeachment is the goal via retake House (midterms), does it still not require a 2/3 vote in the Senate?

Class A Shares

REVIEWED BY JAMES CHEN | Updated Jun 22, 2018

What are Class A Shares

Class A shares refer to a classification of common stock that is accompanied by more voting rights than Class B shares, usually given to a company's management team. For example, one Class A share may be accompanied by five voting rights, while one Class B share may be accompanied by only one right to vote. A detailed description of a company's different classes of stock is included in the company's bylaws and [charter](#).

Plot

In 1988, 11-year-old Dade "Zero Cool" Murphy (Jonny Lee Miller) is arrested and charged with crashing 1,507 computer systems in a single day and causing a single-day 7-point drop in the New York Stock Exchange. His family is fined \$45,000 for the events and he is banned from using computers or touch-tone telephones until he is 18 years old. Seven years later, Dade is now living with his divorced mother in New York City. On Dade's 18th birthday, he receives a computer and uses social engineering to hack into a local television station's computer network, changing the current TV program to an episode of *The Outer Limits*. However, Dade's intrusion is countered by another hacker (handle "Acid Burn") on the same network, and they briefly converse, with Dade identifying himself by a new alias: "Crash Override".

Facebook says outage caused by server change, now resolved

Mar. 14, 2019 12:48 PM • Jason Ayccock

- Facebook (FB -1.8%) says it's **resolved outages** that plagued the company and its Facebook, Instagram and WhatsApp services over the past 24 hours.
- "Yesterday, as a result of a server configuration change, many people had trouble accessing our apps and services," the company says in a tweet.
- We've now resolved the issues and our systems are recovering. We're very sorry for the inconvenience and appreciate everyone's patience.
- The company had said yesterday that the issue wasn't related to a distributed denial-of-service attack, an intentional move often made to sabotage major Web services.
