3. While I loved seeing that adorable Q Baby pointed out by POTUS, I didn't tie it to [@Q_ANONBaby](#)'s story about his experiences with POTUS. It is wild that both instances involve the letter Q, a baby, POTUS, and showing how POTUS is VERY MUCH aware of/involved with Q team.

Google Expert to Senator Cruz: 15 Million 2020 Votes At Risk

Big Tech's biggest threat to democracy isn't censorship or privacy: it's election manipulation.

At a Senate Judiciary Committee hearing, "Google and Censorship through Search Engines," [Dr. Robert Epstein](#), who researches the impact of Google, informed the hearing that "upwards of 15 million votes" were in jeopardy in the 2020 election. During his testimony, Epstein told Senator Ted Cruz (R-TX) that in 2016, Google gave at least 2.6 million votes to Democratic candidate Hillary Clinton, "through bias and search results." He stressed that was the lowest number.

When questioned further by Cruz, Epstein gave a more concise answer: "The range is between 2.6 and 10.4 million votes depending on how aggressive they were in using the techniques that I've been studying, such as the search engine manipulation effect, the search suggestion effect, the answer bot effect, and a number of others."

5. Last week Q agreed w/anons who opposed the /qresearch/ board owner (BO) changing the format of the threads ("breads") eliminating a lot of the resources/links & notables fm the top of each bread.

2. Q agrees with anon who strongly disagrees with BO's (Board Owner) decision to shorten Q Research General "breads" (threads) by eliminating tools & resources fm top of each bread as well as notables. BO created separate "Q Research Notables Thread". [8ch.net/qresearch/res/...](#)

I think the war room and links to qproofs and tools are essential components of the bread.
They are up there to help anons and new lurkers to Q research.
It is one post per bread and has vital information for anons and newfags and normies.
It has the links to the sealed court cases, etc.

If you cut that out of the bread you are cutting out the heart of Q research. That war room bread post will be essential to new eyes coming to the boards.

The shills attack bakers all the time and the bread, and they have since the beginning.

As a longtime anon i don't think this is a wise choice.
Also captcha did not stop any shills, it just made things

The bullshit has gone on long enough, we are changing the standard for Q Research General bakes. Too many groups are trying to control the narrative by gatekeeping the bake. New General Breads will only have the 1st post of the current dough so that Q's posts are always at the top of the bread. If you want a place to post tools and resources bake a new thread and maintain it.

Going forward all anons can submit notable buns for

Please revert bread back to original form.
New structure eliminates / reduces 'hive mind' cataloging & expansion.
Why change a good thing?

Captcha can be easily bypassed by those who would seek to cause disruption.
Having active serves no purpose.
