Thirteen-year-old Regina White is surrounded by monsters. At least that's the conclusion she has come to after watching the news every night and protecting her best friend from bullies every day.

However, this view is put to the test when Regina is taken to the other world, Andara, where talking trees, dragons and fauns are not the only residents; in this world, too, monsters are lurking. And these ones are closer to Regina than she would have thought.

Accompanied by friends who have also been brought to Andara, Regina sets off to explore this land that so many are scared to see. Through unexpected trials, Regina is faced with the possibility that her thoughts about people might have been wrong when she realizes that behind every so-called monster, there's a story. [Less](#)

5. I went down this very dark rabbit hole in 2016 when the Podesta emails were published. For those who dismissed Pizzagate because the media told you it was a "debunked conspiracy theory", this is a good place to start.

There are more good people than bad. The wizards and warlocks (inside term) will not allow another Satanic Evil POS control our country. Realize Soros, Clintons, Obama, Putin, etc. are all controlled by 3 families (the 4th was removed post Trump's victory).

11.3 - Podesta indicted
11.6 - Huma indicted

Manafort was placed into Trump's camp (as well as others). The corruption that will come out is so serious that deals must be cut for people to walk away otherwise 70% of elected politicians would be in jail (you are seeing it already begin). A deep cleaning is occurring and the prevention and defense of pure evil is occurring on a daily basis. They never thought they were going to lose control of the Presidency (not just D's) and thought they had control since making past mistakes (JFK, Reagan).

Good speed, Patriots.
P.S. Soros is targeted.
