New Q (21 Jun '20): Btwn BLM/Antifa thugs blocking entrances & @AOC's bragging re: CCP's TikTok fans fraudulently registering 1000s of fake rally goers, last night's rally was still a resounding SUCCESS! My friend, Debbie attended & shared a post on FB.

1000's more supporters with tickets are not being allowed past barricades. Apparently there are no more 'screeners' to let us through the check points. If you hear there's a poor turnout, it's simply not true. #patriot #trump2020

My son & husband had tickets to attend the Trump Rally. Not allowed to enter because of protesters and the gates being locked for safety reasons? Said there were 1000's of Trump supporters outside unable to get in gates. Police and protesters behind him... came home w/ a flag!

They couldn't get in.... We need to start showing up when Biden holds his gatherings. Can't call them rallies not enough attend...

I've had several ask me about the rally. It was not a completely full arena. I would say it was 75% full???? I've also heard 2/3 full??? I have no idea why it wasn't completely full because I assure you that the energy was INSANE!!! It was so much fun, and in case you didn't know, presidential candidate Joe Biden also gave a speech (in Philly) this week. I'll also include pics for that one.

Is it possible people reserved tickets maliciously to make the campaign think there was going to be a bigger response? Possibly. I have no idea. I know that this rally was planned in six days and there was record fundraising during that time, so I doubt people would have donated if they were not supporters!

People are obviously nervous about COVID. Does that stop people? Would it stop you? I have no idea if that's a contributor. Screenshot in comments of attempt to scare people away. FYI.

The rioting has people scared obviously. There were incidents throughout the week, as I showed. There were BLM and Antifa people present throughout the week in Tulsa. They were blocking the entrance to the rally some today, with arrests being made. There were some pretty intense riots waiting for the crowd upon dispersment. Dece

waiting for the crowd upon dispersment. Does that stuff stop people? I have no idea. Would it stop you? There are screenshots in comments where paid "actors" were being sought for the rally. FYI.

The gates to get close to the arena opened at 10 am, and there were already thousands in line. People camped out all week. I dropped my hubby off at 5 am. At 10 am, the crowd was let in past the gate....which meant a rush through all of the screening....only to wait in a line where you had to stand in one place with hardly any space to even shift your weight...and we stood in that line without access to a restroom or anything from 10 am until 2 pm. It was NOT fun, and people were leaving the line. Then, the doors to the building opened. So, at 2 pm, we went into the arena for the event that started at 7 pm. The rally ended at 10 pm....and rioting groups were outside the arena. Police were shooting them with non-lethal weapons to try and break it up. National Guard was present throughout all of the streets. That was the day leading up to the event and what was

going on afterward. This was the day for the majority of the people in that arena. It was an intense day. Worth it, but would that possibility deter you? I have no idea.

None of us know what's going to happen in November, but if you plan on voting for President Trump, you should be encouraged. The virtual viewership numbers I am seeing are very encouraging, and the rally was a much needed boost to an energized base.

View count for tonight's President Trump rally in Tulsa on RSBN:

2.8 million Facebook views  
1.4 million YouTube playbacks

That's 4.2M views and again, this doesn't include any views from simulcasts we send out.

+Millions more watched on other sources.

 Alarming Data 

→ 40% of COVID deaths have come from nursing homes  
→ 20,000 deaths were avoidable

Numbers don't lie. Cuomo does.

He violated protocol & forced COVID patients into nursing homes—now he's trying to cover up the horrific outcome.

He must be held accountable.

With 90% flu deaths WW affecting 65+ victims, wouldn't be surprised if vaccines are contributing factor.

How is it possible select [D] governors thought it was 'safe' to push COVID-19 positive elderly patients back into nursing homes [hot zones]?

<https://medicine.yale.edu/news/medicineat Yale/why-flu-is-deadly-among-the-elderly/>

"Each year, 90 percent of deaths worldwide related to influenza-A virus (IAV) strike men and women aged 65 and older."

If the flu [influenza] is more deadly among the elderly [known] HOW IS IT POSSIBLE SELECT [D] GOVERNORS THOUGHT IT WAS 'SAFE' TO PUSH COVID-19 POSITIVE ELDERLY PATIENTS BACK INTO NURSING HOMES [HOT ZONES]?

WHY WOULD THIS BE DIRECTED IF HOSPITALS [+US NAVY MEDICAL SHIPS [NYC-CA] +ERECTED CARE FACILITIES] HAD MORE THAN 70% CAPACITY?

<https://criminal.findlaw.com/criminal-charges/third-degree-murder-overview.html>

Someone can be accused of third-degree murder if they unintentionally cause someone else's death while committing a dangerous act.

Negligent?

Reckless?

Who benefits the most?

Why only [D] governors?

How do you reasonably explain what occurred?
