Is this about the virus OR THE ELECTION?

Manipulated polls meant to 'legitimize' rigged election results?

"The election was not rigged - all the polls demonstrated Biden's clear lead across the Country." - Example

What happens if China successfully duplicates **[clones]** select ballots **[battleground states]**?

What happens if coordination exists with select states to deliver 'printing' and 'paper' ballot recipe(s)? **[secrets]** to select **[F]** adversaries?

Nothing to lose?

Logical thinking.

It was written about by George Orwell in his dystopian novel "1984," a quote from which is making the rounds this week.

"Every record has been destroyed or falsified, every book rewritten, every picture has been repainted, every statue and street building has been renamed, every date has been altered. And the process is continuing day by day and minute by minute. History has stopped. Nothing exists except an endless present in which the Party is always right." — George Orwell, 1984

Is that what we want?

Orwell's wisdom suggests Trump was smart to raise the question of where all this is going. And to say: "You are changing history, you're changing culture."
