Hemp hurd / hemp shiv, is the woody inner core of the hemp stalk. It is lightweight, highly absorbent, and environmentally friendly. Commonly used in hempcrete construction, animal bedding, bio-plastics & agricultural applications, it offers excellent insulation, moisture control, and sustainability benefits. As a renewable natural resource, hemp hurd supports greener and more sustainable industries.

HEMP HURD

RETAIL - R 79.99/KG | WHOLESALE - R 49.99/KG

Why Choose Our Products?

Green Route Hemp Industries (Pty) Ltd is a proudly youth-owned, BBBEE Level 1 company committed to building a robust value chain of locally sourced and crafted hemp yarns and fabrics.

When you purchase from us, you're not just buying fabric you're supporting farmers trained through our AgriSETA accredited "We Train to Buy" Program. We collaborate with these farmers as trusted partners, providing them with a reliable marketplace for their harvests.

Choose our fabrics to support local agriculture, energize the hemp industry, create jobs, and boost the economy, all while enjoying premium, sustainable products that originate from African soil.

Proudly South African: Locally Grown, Processed, and Manufactured

MADE WITH PRIDE.
MADE IN SOUTH AFRICA.

COMPOSITION

100% LOCAL

30% HEMP /
70% COTTON

This bag was made from
Hemp grown in
Walkerville, Johannesburg.

MADE IN SOUTH AFRICA

Why Hemp Products?

- South Africa imported over ZAR 40 billion in textiles in 2024, highlighting a growing need for reliable, local alternatives. Green Route Hemp Industries is addressing this gap by building a fully localised hemp textile value chain from farmer training to finished fabric.
- With now over 1,700 licensed hemp farmers in South Africa facing limited market access, we act as a direct off-taker, converting under utilized supply into high-quality, commercially viable textiles. This approach is helping us develop local processing capacity, technical knowledge, and training required to transform hemp into scalable textile solutions.
- For manufacturers and retailers, this means access to locally produced, sustainable fabrics that are fully traceable, reduce import dependency, shorten lead times, and support national industrial growth.
- By choosing our hemp fabrics, you are contributing to a R150 million+ opportunity for local substitution, supporting farmers, creating jobs, and strengthening South Africa's textile industry.
