

## **Hello WSHMMA Community!**

We are thrilled to announce that we'll be hosting our annual conference in-person this fall and keeping our fingers crossed that our new and exciting venue will remain open. We should also be announcing our first date for the quarterly CMRP preparation lessons where you can receive 1 CEU for attending. Please be on the lookout for more details in upcoming newsletters.

### **A Few Updates from AHRMM:**

#### **AHRMM Keys:**

AHRMM has established 29 KPIs known as "AHRMM Keys" across 6 categories: Finance and Operations, Patient Safety, Resiliency, Sustainability and Data Standards. AHRMM shared that they are receiving good feedback from the current Keys pilot program participants and are scheduled to officially launch the AHRMM Keys in 2023. Please visit the website for more details:

<https://www.ahrmm.org/keys>

#### **Education Pathways:**

The Education Committee and AHRMM staff decided to align educational content by operational verticals to create the Education Pathways program. They have identified 4 key vertical areas: Procurement, Inventory Management, Health I.T. and Suppliers. Each vertical will have 3 curriculum components: foundation, intermediate and advanced series courses. There will be digital badge opportunities within each series and once the entire curriculum is completed there will be a Master's program.

### **AHRMM 2022 Annual Conference – In-Person, Online, Hybrid Options**

Don't forget to register for the 2022 AHRMM Conference!

AHRMM invites health care supply chain professionals from around the world to join us at the AHRMM22 Conference & Exhibition, August 7-10, in Anaheim, California.

At AHRMM22, we will explore the latest health care supply chain trends, tools and resources and discuss new and innovative approaches to building a more connected, resilient, and efficient health care supply chain.

Featuring a wide range of interactive educational sessions and networking events, you will have ample opportunities to ask questions of experts and time to have meaningful conversations with fellow attendees. It is also an excellent opportunity to earn continuing education credits.

### **Help Ukraine 22:**

Help Ukraine 22 has been on the ground in-country since March 1, less than a week after the invasion. As people and NGOs were leaving the country, we were becoming fully operational. Our model has been to support existing structures and advocate for them, such as hospitals, women's shelters, and group homes.

We are nearly 100% volunteer across 8 time zones. We only pay those who are Ukrainian or refugees from Ukraine. This leaves our overhead low and targeted impact higher.

By partnering with those already embedded in communities we have been able to strategically implement and monitor impact of our work.

Our website and social media daily details numbers and stories.
