Happy National Healthcare Supply Chain Week!

Message from the President

Happy Supply Chain Week (10/5-10/11)

This year has shown us, yet again, how critical supply chain is to healthcare. We have all had to navigate product disruptions, recalls, and backorders and through it all, we have found a way to keep things moving for our patients and teams. There's a quote I really liked: "*Supply chain is the backbone of healthcare—when it bends, everything else feels the weight.*" (author unknown). We have proven time and again that our backbone is strong.

So, this week, let's make sure you take a moment to celebrate with our teams and don't forget to give yourself a well-deserved pat on the back. You are the stars working behind the scenes, making sure the right products are in the right place at the right time.

I couldn't be prouder to be part of this profession alongside each of you. Thank you for everything you do to keep healthcare resilient and strong.

Warm regards,
Kamalpreet Dhillon
