

The Original Drain Alert

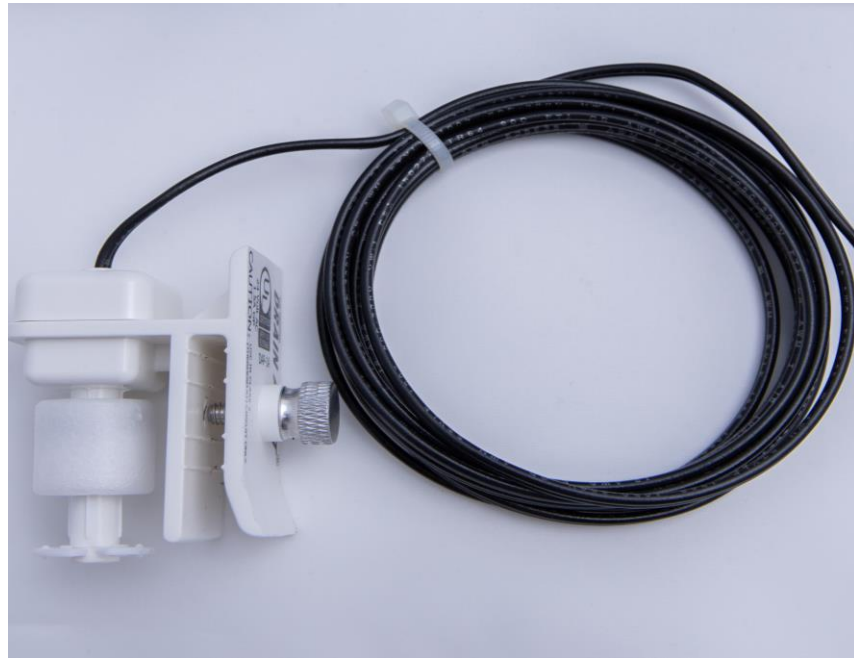

Drain Alert Products Inc
Tampa Florida

Drain Alert® Products Inc

Patented in the USA and UL Listed

- The Original Drain Alert was conceived by Rudy Hernandez in the early 2000s as an improved solution to minimize A/C drain water overflow damage. For over two decades, he has devoted his life to the development of Drain Alert products, which are rigorously tested and certified by Underwriters Laboratories. Our SKU, barcodes, and related codes are generated by GS1, and all our products are patented in the U.S., unlike some competitors' offerings.
- Drain Alert adheres to a strict code of ethics throughout the manufacturing process, with each product individually tested to ensure compliance with building codes. Additionally, all electrical components undergo thorough continuity testing.

DAP-1A Drain Pan Switch

DAP-1A Drain Pan Switch

DAU-RS-2 With 80" Black Install Wire

DAU-RS-2 With 80" Black Wire

DAU-RS-V Blue Top Switch 80"Wire Current Surge Protector

DAU-RS-V Blue Top 80" Wire W/Current Surge Protector
Perfect For Areas That Have Voltage Fluctuations and Or Intermittent
Electrical Outages

DAU-RS-6 No Bottom Cap 80" Wire

DAU-RS Grey Plenum Wire 80" inches Special Order Limited Quantity Designed for system which is installed Outside

DDVB-2001 Dryer Vent Box

Compact for New or
Remodeling
Construction
