Gina went above and beyond to make sure my needs were met. Selling a house can be overwhelming and not only did she professionally guide me through the process, she made me feel like I had friend guiding me!

Jamie Collier, Blair Seller

Gina is a fantastic agent. She wants your profit to be as much as possible. So even with the sellers market she takes the time to give you the feedback you need to make it showable to it's fullest potential. She is great to work with!

Crissy Schnick, Millard Seller

When I first bought my house I bought it sight unseen. I was stationed in Korea and was looking for a home in Omaha, Nebraska that was close to work. Gina todoro did many virtual tours with me and she told me that she was not going to let me buy a house that she wouldn't sell to her family. I ended up getting a really cool house that she recommended and found me on the first day that it was listed. After the process of buying my house. She was always readily available to answer any of my homeowner needs. She has a working knowledge and relationships with many other people such as contractors, loan officers, and home care needs. When it was time to sell my house I knew I had to go back to Gina because she truly has her clients best interest in her heart. On top of this she is relentless with her work ethic. I joked around and said that Gina is on the clock non-stop. She was always available no matter what time it was and answered me within seconds or minutes. During the selling process, she really made it easier for me and took a lot of the stress from home selling from my shoulders. Her honest and candid feedback got my house sold even as the market was slowing down. Her working knowledge of the seasons and interest rates definitely helped me sell at the right time. I would recommend her to anyone and she is almost more than a realtor. She is a part of the family and friend.

Joseph Mendez, Bellevue Seller

Gina is an amazing realtor. She made us feel like our needs came before her commission and I felt valued as a client. Would always recommend her!!

Sokhom Kilker, Valley Seller

It was my first time buying a house and I was very unsure about several different factors and Gina helped me by helping me figure out I was looking for. she helped me throughout the entire process and anticipated questions before I even knew I needed them. She was always willing to talk no matter what time of the day and was very quick and professional with any issues I had. I definitely would recommend her to any first-time home buyers like myself. She helped me by walking through the entire process and was a shining light whenever I felt like I was stuck.

Ryne Donovan, Bellevue Buyer

Gina is very helpful, straight forward and honest in everything she does. She was there every step of the way answering questions, helping out and going above and beyond. She always answers your questions or finds someone who can answer the question you have. She is an amazing realtor and friend.

I would and have recommended her several times to my friends and family and this time I had the pleasure to utilize her talents.

Gina Todero was an excellent agent that I'd recommend to anyone out there. She worked with me for almost a full year and was totally committed to investing her time into my purchase despite me frequently taking house-hunting breaks for weeks at a time to leave town for work and leisure. When interest rates were low and the market was crazy, she supported all of my decisions, even when my offers were unlikely to be accepted. I went under contract on two different houses with her and she was beyond thorough in making sure we accounted for everything, even when that entailed discussing our offer strategy for over an hour and writing up a proposal at 8pm (which happened more than once). When things went awry on the first contract, she took way more responsibility than she needed to and helped me mitigate unexpected expenses even though most of it was not her fault. Month after month, she was almost always just a text or phone call away ready for business. Even the day before closing when it was looking like my journey was reaching its final conclusion, Gina was stopping by the property to make sure everything was move-in ready (good thing because a breaker switch randomly stopped working!)

I've often thought it's crazy how much realtors make off a home purchase and felt a little ripped off with some past agents who did very little and got a big pay day. I feel the complete opposite using Gina Todero for this last purchase. She worked tirelessly and she was worth every penny of commission.

Gina Todero was very knowledgeable and patient with us when looking for the things that mattered to us most. She went over all the details and walked us through each step of the buying process. She dealt with the sellers and listing agent, who were difficult at times, in a very professional manner. We were out bid on a few homes in the beginning of our search, which was discouraging, but Gina worked very hard and was excellent at negotiating. We are very happy with our new home and would refer Gina to anyone looking to buy or sell.

Darleen Mahoney, Omaha Buyer

Stephanie Ortega, Omaha Seller

Gina was an amazing Realtor for myself and my husband! She has an eye for imperfections when looking at properties. She listened to what we wanted and made it happen. She is very down to earth and personable. I would definitely recommend and or use Gina again for future purchases!

Jennifer Robles, Omaha Buyer

This was a rental property! Our property manager is also in sales and had a notice of my intent to sell a month in advance. She did nothing to prepare for a sale. When I contacted Gina about a market appraisal, she had an interested buyer within 24 hours. She was friendly, efficient, and professional in our interactions. If I ever, again, need an agent in the area, I will call Gina. I will also recommend her to others in the military community.

Jwan Joslin, Bellevue Seller

Gina was our realtor on purchasing our first home when we relocated from SD. The dedication she demonstrated in that purchase was impressive and reassuring during a very stressful time. We were fortunate to work with her again on the sale of our home. She again exceeded any expectations we had and continues to assist us with our relocation needs. Gina was always available and very informative on all activity during entire process of sale. She was very understanding and patient with our many questions and concerns. Very pleased with her patience and professionalism. Cannot say enough positive things about Gina!! Would highly recommend her. An incredible asset to century 21 Gina continues to check on us and follow up with picking up mail/packages that haven't been forwarded. Even after completing the sale of our home, she is still taking care of our needs.

Stephanie & Tony Hernandez, Papillion Seller

My husband's and my overall experience with Gina Toderro exceeded our expectations. She is knowledgeable of many different areas around the metro area. Her knowledge of homes goes above and beyond what we expected. In addition to the cosmetic details of a home Gina identified other areas such as drainage, cement, plumbing and the overall age of the house and it's impact on the sale. When it came time to make some updates or repairs to our home she helped us prioritize them. Gina kept us informed of every upcoming showing and the feedback from the showing. We were attempting to sell our home during a difficult time of year. Gina tackled that challenge full on. She went the extra mile to help us sale our home. Once the buyers were in the picture, Gina guided us through to the final sale. We could not recommend a better real estate agent then Gina. She is patient and ALWAYS willing to answer your questions and explain things. Gina is friendly, knowledgeable, respectful, energetic and gets the job done! We will be recommending Gina Toderro to our family and friends.

John and Teresa Barta, Papillion Buyers & Omaha Sellers

Very knowledgeable about what the VA will and will not accept when looking at houses. She understood what I wanted and checked the house information of the houses I was looking at and let me know if they would meet my requirements. Gina has a great personality and is very helpful in explaining all the little details of the process. She knows what, those of us who are prior military, we are looking for and very helpful and understanding of our military view point. Gina has a very good eye for what is good and what is not. She noticed everything and pointed out what needs to be fixed by the seller and adding it to the requirements for the purchase agreement. Gina was there from the start to the finish of signing, helping me understand the nuances of the whole process.
