

# HORIZON FINANCIAL SOLUTIONS

## CONGRATULATIONS!

**WHETHER YOU'VE BOUGHT YOUR FIRST HOME, OR YOU'VE PURCHASED A HOME BEFORE, THIS IS A BIG STEP!**

*House purchases tend to be significant financial commitments and long-term decisions for most people and their families. Most of my fondest memories are tied to a house that either my parents owned growing up, or one that I purchased with my wife over the years. Connections to those events should always be happy and memorable, but sometimes that does not happen. Not everyone lives to be 85, dying in their sleep peacefully, having run a marathon the day before. Protecting your ability to pay the mortgage on your home that likely only provides great memories is something everyone should be able to do, but most people pretend that it'll never happen to them or their immediate family. Protecting your ability to pay the mortgage on your home, some place that should only provide great memories, is something that everyone normally does. But everyone pretends that the alternative won't happen to them or their loved ones.*

*I have partnered with Amplified Insurance to enhance their expertise and to help provide more value to their clients. If you're open to a conversation about your situation, so you know your options and are aware of those possibilities that exist let's talk. Knowledge is power. I am here to empower you to make good decisions and help provide peace of mind to those times of uncertainty that hopefully never come up prematurely. Let's talk about protecting your ability to pay your mortgage against the unknown.*
