About the Artist

Media: Watercolours, Acrylics,
Mixed Media

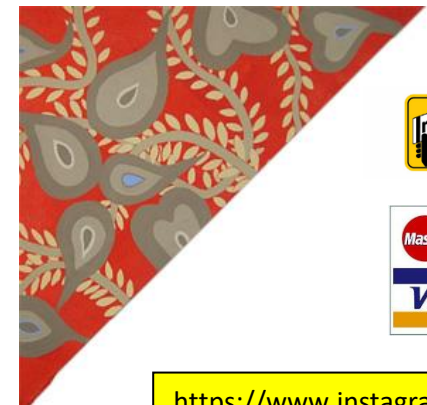

Education: Industrial Eng.
(Conestoga College)
Fine Arts (WLU)

Karen is inspired by an inner excitement and motivation that compelling subjects can evoke. Her subject matter varies from micro to macro views of the world around her- nature, people, and architecture.

"In my works, I use colour and/or texture to convey a certain mood or feeling about the subject matter. My objective is to show the beauty in the world-often dismissed."

Karen teaches art to adults and children all year round. Combining her love and enthusiasm for art with a sensitivity to the needs of the students inspire them to explore the possibilities in their own art.

Karen's art hangs in corporate offices and private collections in North America and as far away as Japan.
